Taiwan is among the world's top 6 plastics and rubber machinery exporters

Taiwan is famous for manufacturing machines with high cost-performance ratio, high quality and customized design. These characteristics, in addition to a comprehensive supply chain and cross-sector integration, have enabled Taiwan to establish its global presence and put Taiwan among the world's top 6 producers in plastics and rubber machines. In 2016, its production totaled US\$1.25 billion, and its export value reached US\$1.03 billion, making it the 6th largest supplier in the world.

Reasons for participating in TAIPEI PLAS

99.4% of the 2,633 foreign visitors, and 98% of exhibitors enjoyed the benefits of Taipei PLAS 2016 because not only did it serve as a comprehensive sourcing platform encompassing every facet of the supply chain but it showcased automated equipment, industrial robot, and highly-precise, efficient and smart machinery, in response to the concept of Industry 4.0.

Taipei PLAS 2016 Participants' Testimonials

"I have been purchasing Taiwanese machines for the past 35 years, and have seen vast improvements in the Taiwanese industry over the years. I have come to Taipei PLAS many times, because Taipei PLAS is where I make business."

—Brendan Burns, Buyer, Burns Machinery Sales, South Africa

"We joined Taipei PLAS not only because of its popularity, but also because of the important group of international buyers it serves. We received over 40 inquiries during the show. The outcome for this show has greatly exceeded our expectation."

—Naoki Fujino, Exhibitor, FUTEC MV Devices, Japan.

"Taiwan has a large and diverse plastics machinery industry, and it's interesting to hear how it upgrades and meets demands for smarter, more automated machinery and Industry 4.0."

—Steve Toloken, Media, International Plastics News, USA
