## Welcome Remarks from Walter M. S. Yeh, President & CEO, Taiwan External Trade Development Council (TAITRA)

It's my great pleasure to welcome you to the third 'Smart Asia India - Expo & Summit', the most professional and comprehensive smart city event organized by TAITRA in India in 2019.

As we know, Mumbai is the financial capital of India and the primary city for the 'Delhi Mumbai Industrial Corridor' and 'Bengaluru Mumbai Economic Corridor'. Taiwan, on the other hand, has a world-leading ICT industry and has been using its technology to build smart cities for decades.

With a growing population and rapid urbanization in Mumbai, it's the right time and place for us to cooperate and facilitate an era of modernized and enjoyable cities.

This year's event is TAITRA's first ever B2B and B2G tradeshows in Mumbai. In line with global trends and India's current needs, more than 50 exhibitors from five countries will introduce their diverse smart solutions in the areas of smart transportation, smart energy, smart water management, environmental sustainability and IoT solutions. I firmly believe the event will serve as a catalyst for fostering India's development of smart cities.

I'd like to express my best wishes to all participants in Smart Asia India 2019. Let us work together to build future cities with smart technologies.

## General Information

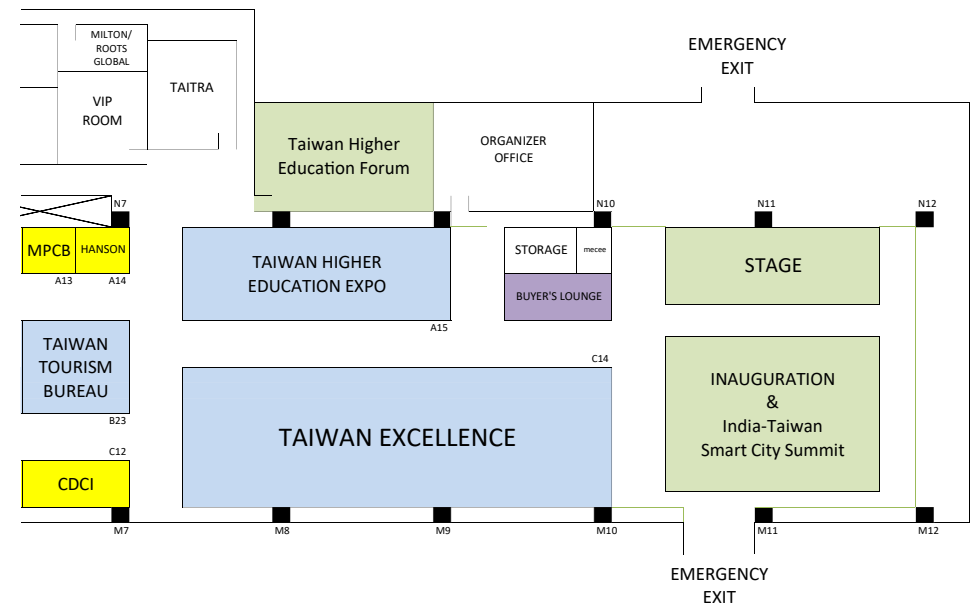

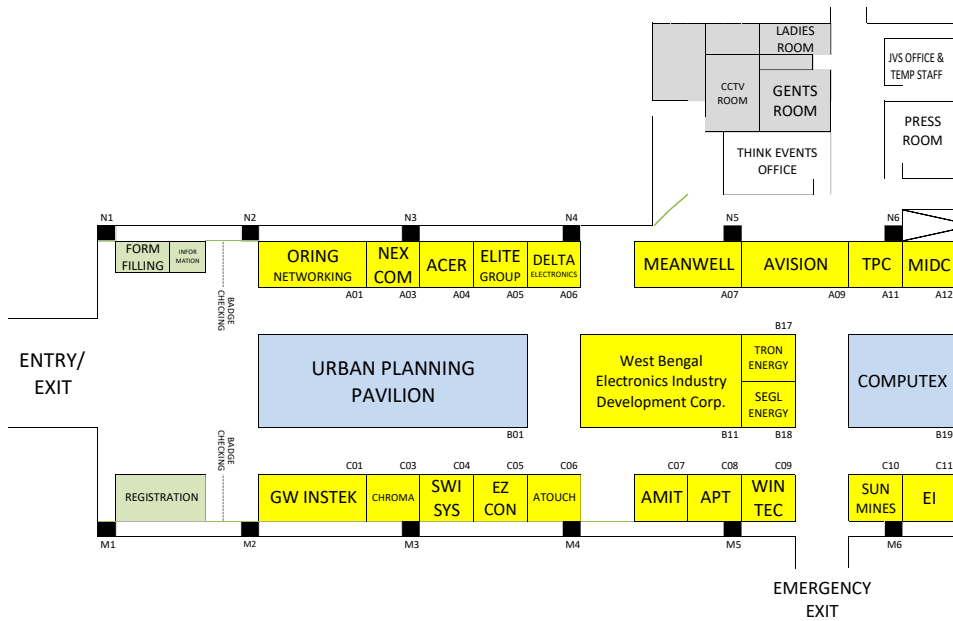

Organizer	 Taiwan External Trade Development Council (TAITRA)
Co-Organizers for Summit	 Federation of Indian Chambers of Commerce & Industry (FICCI)  Advanced Public Transportation Research Center (APTRC)  Intelligent Transportation Society of Taiwan (ITS Taiwan)
State Partner	 DEPARTMENT OF INFORMATION TECHNOLOGY & ELECTRONICS GOVERNMENT OF WEST BENGAL
Event Partners	 All India Association of Industries (AIAI India)  World Trade Center Mumbai (WTC Mumbai)  World Trade Center Pune (WTC Pune)
Show Dates & Hours	Oct. 17-18 10:00 A.M.~ 6:00 P.M. Oct. 19 10:00 A.M.~ 4:00 P.M.
Venue	Hall 5, Bombay Exhibition Center (BEC), Goregaon East, Mumbai
5 Exhibit Focuses	<ul style="list-style-type: none"> <li>• Smart Transportation</li> <li>• Smart Energy</li> <li>• Smart Water Management</li> <li>• Environmental Sustainability</li> <li>• IoT Solutions</li> </ul>
2019 Summit Focuses	<ul style="list-style-type: none"> <li>• Smart City Collaboration—Taiwan vs. India</li> <li>• Future Trends, Developments and Opportunities in Indian Smart Cities</li> <li>• Digital Transformation for Smart Cities</li> <li>• Sustainable Urban Living</li> <li>• Smart Mobility for Smart Cities</li> </ul>
Highlight Events	<ul style="list-style-type: none"> <li>• Inauguration</li> <li>• India - Taiwan Smart City Summit</li> <li>• Taiwan Higher Education and Academia-Industry Collaboration Forum</li> <li>• B2B &amp; B2G Business Meetings</li> </ul>

# SMART ASIA India 2019

## Bombay Exhibition Center, Hall 5

### 17-19 October, 2019

Floor Plan

Floor Plan

Updated on 2 Oct., 2019

## SMART ASIA India 2019 Inauguration Agenda (tentative)

**Date:** Thu., October 17, 2019

**Time:** 11:00-12:00

**Venue:** Stage area, Bombay Exhibition Center, BEC

※All schedules are subject to change without prior notice.

Time	Program
10:30-10:57	Reception
10:57-11:00	House warming
11:00-11:05	VVIPs recognition
11:05-11:10	Remarks by VIP of Taiwan Higher Education Exposition
11:10-11:15	Remarks by Mr. Amit Malik, Co-Chair, FICCI
11:15-11:20	Remarks by Amb. Mr. Chung-kwang Tien, Representative, Taipei Economic and Cultural Center in India
11:20-11:25	Remarks by Mr. Kunal Kumar, Joint Secretary and Mission Director (Smart Cities Mission), Ministry of Housing and Urban Affairs, Government of India
11:25-11:30	Remarks by Mr. James C. F. Huang, Chairman, TAITRA
11:30-11:35	Lamp-lighting Ceremony & Group Photo
11:35-12:00	VIP Tour

### ACER BEING COMMUNICATION CO., LTD.

A04

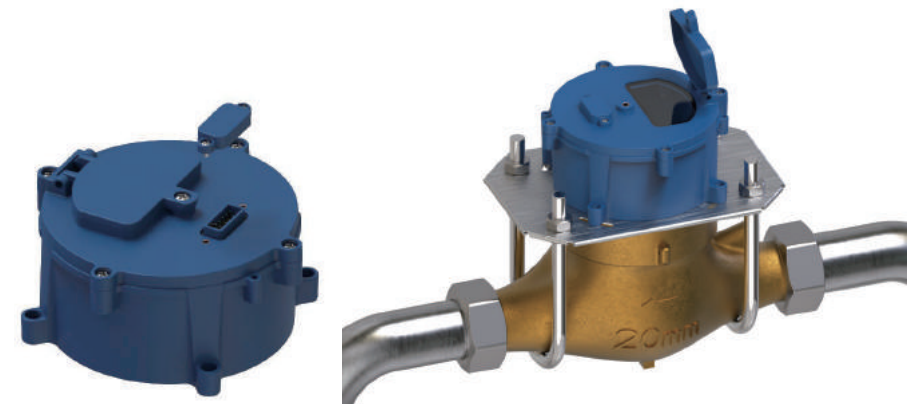

[www.acer.com](http://www.acer.com) | [liangping.chiu@acer.com.tw](mailto:liangping.chiu@acer.com.tw) | 886-2-2696-3131

#### Company Info

Acer Being Communication Co.,Ltd is a company focusing on Business IoT solution. Based on the concept of smart connection, Acer has developed Smart Water Monitoring System, Smart Water Meters, Smart Agriculture, Smart Lighting, and Smart Building solution to fulfill each demand of Smart Cities.

#### Product Info

Acer Being Communication realizes the biggest challenge for governments hoping to phase in smart water meters is the budget. In addition to purchasing new meters, there are installation and operating costs. To solve this problem, Acer Being Communication proposes upgrading existing meters to smart meters via the "Add-on" concept. "Add-on" means adding a device to water meters directly, capturing the reading, carrying out local OCR (Optical Character Recognition), and then sending the results to the cloud or backend system. In this way, governments don't need to purchase new meters, or pay to install them.

## ADATA TECHNOLOGY CO., LTD.

C14

[www.adata.com/en](http://www.adata.com/en)  
[patience\\_han@adata.com](mailto:patience_han@adata.com)  
 886-2-82280886#12247

### Company Info

The new logo conveys a more modern design that represents consistency, while retaining the foundation of ADATA's technical background with the traditional corporate color in blue. The hummingbird incorporates key design elements that reflect ADATA's culture, vision for the future and their commitment to becoming a global brand. The hummingbird's agility suggests that ADATA is highly responsive to market and consumer demands; its swiftness demonstrates leading innovation and productivity in the industry; its exploring nature signifies ADATA's determination to pursue all possibilities; the color and modern design reflect the exciting and dynamic characteristics of the ADATA brand.

### Product Info

**Gaming External Solid State Drive:** The XPG SD700X is the first gaming-styled IP68 external SSD designed to expand console storage. It's completely dust-tight and highly waterproof, delivering up to 1TB in plug and play for Xbox One, PS4, PC, Mac, and Android. The SD700X reaches 440MB/s read and write to reduce load times by an average of 20% compared to internal console drives.

## ADVANTECH CO., LTD.

C14

[www.advantech.tw](http://www.advantech.tw)  
[Sherry.Chen@advantech.com.tw](mailto:Sherry.Chen@advantech.com.tw)  
 886-2-27947302

### Company Info

Advantech's corporate vision is to enable an intelligent planet. The company is a global leader in the fields of IoT intelligent systems and embedded platforms. To embrace the trends of IoT, big data, and artificial intelligence, Advantech promotes IoT hardware and software solutions with the Edge Intelligence WISE-PaaS core to assist business partners and clients in connecting their industrial chains. Advantech is also working with business partners to co-create business ecosystems that accelerate the goal of industrial intelligence.

### Product Info

#### WISE-PaaS/DeviceOn

WISE-PaaS/DeviceOn, the IoT device management app, allow customers to monitor device health, real-time actions to power on/off, troubleshoot problems, and send software and firmware updates over-the-air (OTA) on-site and remotely at scale.

## AIFA TECHNOLOGY CORP.

C14

aifatechnology.com  
aifa@aifa.com.tw  
886-7-777407

### Company Info

AIFA Technology is a key enabler of both universal remote control (IR) and Internet of Things (IoT), these years we've been developing smart home devices using Wi-Fi and Bluetooth technology such as i-Ctrl. With 26 years of IC and firmware design, product development and manufacturing experiences, we have been providing services to many major electronics brands in Japan, Germany and around the world.

### Product Info

i-Ctrl enables traditional home appliances smart via integrating home appliances through Wi-Fi environment and a remote app. i-Ctrl controls a wide range of home appliances such as TV, AC, DVD, STB via your smartphone, based on its 360° horizontal and 180° vertical IR emission and a comprehensive infrared home appliances database. i-Ctrl serves as an "smart Wi-Fi controller".

## AMIT WIRELESS INC.

C07

www.amitwireless.com | sales@amit.com.tw | 886-6-5058026

### Company Info

AMIT offers expertise in embedded systems and secure wireless communications. AMIT products enable connectivity for full range of IIoT and M2M applications based on high-bandwidth 4G LTE, WiFi, and cost-effective LPWA wireless technologies: NB-IoT, LoRa, LTE Cat.M1. Our products help to implement convergence of all customer systems into a single core infrastructure. Products are featuring comprehensive security mechanisms such as VPN tunneling, VLAN segmentation, user authentication and access policies. Connection reliability is enhanced with multiple WANs and Failover functionality. Wide range of products include models with power redundancy and rugged enclosures. Products are cloud-ready and highly compatible with third-party systems supporting industry standard protocols. Support team is always available to help customers and ensure effortless integration of AMIT products. Our innovations are driven by customer's needs and ambitious projects. AMIT brings digital transformation on to the world and welcome new partners to join us.

### Product Info

#### IOG951-0T121

AMIT IIoT 4G gateway (IOG) makes connection easily to enable remote SCADA, Automation & Analytics. There are various wireless technology, field interfaces, and protocols to integrate OT sensors, IT network, edge computing to remote cloud platform. With VPN security mechanism, it can provide total wireless connectivity solutions for Smart City infra-structure deployment, from homeland security, utility management to urban mobility. IOG series can be also used in industrial automation to fulfill industry 4.0 with its rich event trigger & handling mechanism.

## APTOBJECT CORPORATION

C08

[www.aptoobject.com](http://www.aptoobject.com) | [service@aptoobject.com](mailto:service@aptoobject.com) | 886-2-27168568

### Company Info

AptObject Corporation, established in 2000, helps corporations and government agencies to design and development information systems and applications of IoT software and hardware systems, provides feasible and helpful solutions, improves operating procedures and reduces operating costs. Our customers are from Taiwan, Hong Kong, Japan, India, Europe and the United States. All our team members have been involved in various types of system integration projects, and continuously absorb the latest knowledge and technology. The company is committed to becoming the most reliable and trustable information technology provider

### Product Info

#### AptBee IoT Gateway Features

- Store and Forward Sensing Data
- web-based Management Console
- Active/Passive Access Control
- RESTful APIs
- Up to 50 Wireless Sensor Devices
- Rules Engine

AptBee IoT Gateway connects wireless sensor network and the cloud system to support variety of IoT applications and services.

Main functions are to store and forward sensing data and dispatch control command from sensor devices. Each gateway can connect up to 50 sensor devices; and each device can have at most 8 sensors or actuators.

An embedded web-based management console is used for configuration and observing status of sensor devices.

## ATOUGH TECHNOLOGIES CO., LTD.

C06

[www.a-touch.com.tw](http://www.a-touch.com.tw) | [info@a-touch.com.tw](mailto:info@a-touch.com.tw) | 886-2-26988717

### Company Info

ATouch Technologies Co., Ltd is a Taiwan-based company with strong background of Touch panels product research and development and excellent experience of mass production. ATouch is one of the professional manufacturers who can offer 3 types of Touch panels products in Resistive / SAW / Projective Capacitive technologies for different applications.

### Product Info

#### Surface Acoustic Wave Touch(SAW touch)

The Surface Acoustic Wave Touch Screen is a pure glass surface touch screen which has no coatings or overlays on the glass. The benefits include:

- Superior image clarity with high light transmission
- Sensitive and fast response
- Durability, deep scratch resistance and abrasion
- Highest resolution
- Activated by finger, gloved hand, leather or soft stylus
- More than 50 million touches in a single point
- Dirt and splash sealed capability
- Custom size for OEM available

#### Public Access Application

- Point-of-information kiosks
- Gaming, lottery, and amusement
- Vending and ticket sales
- Public pay phones
- Multimedia marketing
- Banking / financial transactions

## AVER INFORMATION INC.

C14

www.aver.com  
marcom@aver.com  
886-2-22698535

### Company Info

Aver Information creates smart, intuitive, and sustainable solutions that people use to engage and connect every day. Founded in 2008, we are dedicated to providing award-winning education and communication innovations that improve quality of life and provide alternatives to traditional conventions and technology. We are deeply committed to the community and the environment, and employ stringent green measures in everything we do.

### Product Info

#### SVC500

As the next generation of AVer's video conferencing system, the SVC500 was endowed with a futuristic design. Its standout feature is a curved stand that supports a powerful PTZ camera with an 18X total zoom lens. In addition, WebRTC, H.323, SIP, and Skype for Business support provide endless communication possibilities.

#### CAM540

The CAM540 brings AVer's new SmartFrame auto framing technology to 4K UHD video conferencing. With a wide field of view, the CAM540 is guaranteed to provide an incredible communication experience in your meeting room.

#### VB342

The VB342 easily puts all participants in clear focus with its 4K PTZ camera's extraordinary video quality and its professional-grade speakers and microphones. This USB plug-and-play conferencing system is perfect for huddle rooms.

## AVISION INC.

A09

www.avision.com.tw | claire\_sung@avision.com.tw | 886-3-5782388 #8934

### Company Info

Avision was founded in 1991 that designs and produces office equipment. Avision is a member of the TWAIn Working Group. Avision's headquarter is in Hsinchu Science Park, Taiwan and owns five branch offices in China, Germany, the United States, Brasil and Japan, and employs approximately 1,500 individuals. To ensure the world class product quality and reliability, Avision attained ISO-9001 certification, ISO-14001 certification and ISO13485. The implementation of ISO-9001 significantly helps every employee build quality into every aspect of the company's operation.

### Product Info

#### Self-Service Copier - Mobile pay solution

Here comes a perfect service to save staff and customers from lineup stress. Self-service copier provides customers more convenient and secure way to make payments - cover over 90% local mobile wallets in India such as Paytm, UPI . Mobile payment allows customers to forget the hassle of cash and checks, and get paid quicker and more convenient. In addition to the available payment benefits for customers, there are certain advantages that help store owners reduce labor costs and increase profitability in their business.

 886-7-6236001

### Company Info

Bintronic, a smart home brand who focuses on Home Smart and Comfortable, smart curtain and products. Through the function of smart management, simple to install and easy to operate to bring out the idea of smart home.

### Product Info

Smart Roller Blind : Bi-directional communication: adjust natural light anytime, anywhere

## BUDER ELECTRIC APPLIANCE CO., LTD.

C14

[www.buderwater.com.tw](http://www.buderwater.com.tw)  
[lydia@buderwater.com](mailto:lydia@buderwater.com)  
 886-4-22706789

### Company Info

Buder Electric Appliance Co., Ltd. was founded in 1970, our belief always to be Integrity as our marketing concept. For more than 49 years. Buder has been continuously developing and with excellent customer service and good quality, has become a professional water dispenser manufacturer. Buder has 6 domestic branch offices, 30 service centers in Taiwan and has been export the products to the more 40 countries, such as UK, USA, Australia... etc.

### Product Info

Counter top water dispenser :

#### Product Functions

- Cold Hot Countertop Water Dispenser Super high temperature with pressure design.
- Fully boiled water, drink securely.

#### Safety Design

- Hot water safety lock design.
- Water leaking circuit breaker, cutting off water automatically to avoid disasters.

#### Quality Assurance

- Medical level #316 stainless steel heating tank. Stainless steel heating tube, safer drinking.
- Double protection with 2 thermostats: WAKO ( Japanese Brand )
- Disposable filter Healthier drinking.
- Efficiently cooling water.
- R-134a environmentally friendly refrigerant
- Quick changing design filter, make changing easier.

## CDC DEVELOPMENT INDIA PVT. LTD.

C12

[www.centurydev.com.tw](http://www.centurydev.com.tw) | [manoj@mail.centurydev.com.tw](mailto:manoj@mail.centurydev.com.tw)  
[Steven@cdci.co](mailto:Steven@cdci.co) | 886-2-26532688

### Company Info

Century Development Corporation (CDC) was established in 1993. It is a joint venture supervised by the Ministry of Economic Affairs and founded by the leading companies in Taiwan, including TECO Group, RSEA, Taishin Banking Group, Shin Kong Group, and Fubon Group. As the leading industrial developer in Taiwan, CDC, along with our subsidiaries Century Tech C&M Corporation, Jie Zheng Property Management and United Development Corporation, provide comprehensive products and consulting services including investment and development, design and construction, property management, and industrial planning.

As the pioneer in industrial park planning, CDC has created the landmark project in Taiwan - Nankang Software Park. The park is one of the most advanced industrial parks. It covers more than 610,000 m<sup>2</sup> of office space and is home to over 400 companies, including the prominent Yahoo, HP, Intel, and Lenovo. In addition to the large-scale corporations, Nankang Software Park also hosts three startup business incubators. With a sum of over 40,000 employees in the park, the annual production value of all companies combined totals 35 billion USD.

And Now CDC is eyeing on India Market and will be the first developer from Taiwan to develop first Industrial Manufacturing Cluster in India, and targeting Electronics, EV, Precision Machinery & Tools and Biotech Industry from Taiwan, Japan and other Asia countries. CDCI's First project will be in Bangalore, CDCI is planning to build 3 Industrial Parks in India.

### Product Info

#### TIIP - B

Technology Innovation International Park, Bengaluru

Size : 70 Acres

FAR : 3.25

Coverage Ratio: 45% to 65%

TIIP-B is an electronics Manufacturing, EV, Bio-tech and Precision Machinery Cluster for Taiwanese and Japanese companies near Bangalore International Airport to offer one stop solution for units looking for manufacturing or R & D space in India.

## CHROMA ATE INC.

C03

[www.chromaate.com](http://www.chromaate.com) | [info@chromaate](mailto:info@chromaate) | 886-3-3279999

### Company Info

Founded in 1984, Chroma ATE Inc. is a world leading supplier of precision test and measurement instrumentation, automated test systems, intelligent manufacturing systems, and test & automation turnkey solutions marketed globally under the brand name "Chroma". Significant markets Chroma serves include electric vehicle, photovoltaic, green battery, power electronic, passive component, electrical safety, thermoelectric, and intelligent manufacturing system for ICT, clean technology, and smart factory industries.

### Product Info

#### Electric Vehicle Test Solutions

#### Battery Test Solutions

#### Power Electronics Test Solutions

As the automotive industry advancing in power conversion and battery technologies, Chroma has been actively working to improve electric vehicle (EV) testing performance and cost by developing flexible automated power conversion test platforms and regenerative battery test systems.

## CYBER POWER SYSTEMS, INC.

C14

[www.cyberpower.com](http://www.cyberpower.com)  
[in.marketingsupport@cyberpower.com](mailto:in.marketingsupport@cyberpower.com)  
 9870344935

### Company Info

As the global power management solution provider, CyberPower has been continuously offering high-efficiency power management products, ranging from UPS Systems, Racks, PDUs, Inverters, Solar Power Systems, Power Management Software, Surge Protectors, to Mobile Accessories. CyberPower provides excellent hardware and software integration while keeping focusing on green solutions to the broad fields that the brand serves. To learn more about CyberPower products and its exclusive technologies, please visit [www.cyberpower.com](http://www.cyberpower.com) for more details.

### Product Info

CyberPower Long Backup UPS CPS1500PIE provides backup power when regular systems fail for a wide range of applications including household appliances, office systems, banking & retail, and industrial sites. It provides noiseless, fuel-less, and clean Pure Sine Wave output with adjustable Automatic Voltage Regulation (AVR), making it a greener and better solution over traditional generators.

The product is also generator-compatible, making it suitable for existing installations. It can accommodate unlimited number of batteries for additional runtime capacity, and the high charging current allows quick recharging up to five times faster. Users can access information of power/battery conditions and configure advanced settings, including alert of potential power problems and switching mode at the push of a button.

## DELTA ELECTRONICS, INC.

A06

[www.deltaww.com](http://www.deltaww.com) | [Automation@deltaww.com](mailto:Automation@deltaww.com) | 886-3-3626-301

### Company Info

Delta, founded in 1971, is a global provider of power and thermal management solutions. Its mission statement, "To provide innovative, clean and energy-efficient solutions for a better tomorrow," focuses on addressing key environmental issues such as global climate change. As an energy-saving solutions provider with core competencies in power electronics and automation, Delta's business categories include Power Electronics, Automation, and Infrastructure. Delta offers some of the most energy efficient power products in the industry, including switching power supplies with efficiency over 90%, telecom power with up to 98%, and PV inverters with up to 98.8% efficiency. We have also developed the world's first server power supply certified as 80 Plus Titanium. Headquartered in Taiwan, we regularly invest 6% to 7% of our annual sales revenues in R&D and have worldwide R&D facilities in China, Europe, Japan, Singapore, Thailand, and the U.S.

### Product Info

#### Monitoring & Management Solution for Municipal Equipment

The monitoring & management solution for municipal equipment makes use of Delta's DIAView Supervisory Control and Data Acquisition System as a management tool. The DIAView allows remote monitoring of municipal equipment in real-time, as well as visualized system management and digitalized city data management, to enhance equipment utilization rate and efficiency.

The solution also combines with Delta's power meters, AC motor drives, PLCs, active front end, industrial Ethernet switches, industrial PCs, and energy management system to control and monitor the operation of water / electricity / oil / gas supply, HVAC and security systems in cities.

With operation status monitored and data recorded, this solution offers automatic tracking and preventive alarms with fault calculation, anomaly analysis, energy consumption and savings, field diagnosis, and comprehensive service. It also enhances overall municipal equipment utilization efficiency through real-time monitoring, automatic control, parameter tracking, energy-saving control, and alarm reports.

## EDGECORE NETWORKS

B01

[www.edge-core.com](http://www.edge-core.com) | [sales@edge-core.com](mailto:sales@edge-core.com) | 886-3-5638888

### Company Info

Edgecore Networks Corporation is a wholly owned subsidiary of Accton Technology Corporation, the leading network ODM. Edgecore Networks delivers wired and wireless networking products and solutions through channel partners and system integrators worldwide for data center, service provider, enterprise and SMB customers. Edgecore Networks is the leader in open networking, providing a full line of open Wi-Fi access points, packet transponders, virtual PON OLTs, and 1G, 10G, 25G, 40G, 100G and 400G OCP-ACCEPTEDTM switches that offer choice of commercial and open source NOS and SDN software. For more information, visit [www.edge-core.com](http://www.edge-core.com)

### Product Info

Edgecore Networks provides professional wired and wireless solutions from the edge to the core. With a strong focus on complete solutions that generate value for customers and assist with realizing the potential of a digital-network society, Edgecore Networks offers a broad product portfolio spanning 400G/100G/40G/25G/10G/GE switching, enterprise-level wireless, and network management tools. We provide industry-leading products that address our customers' network requirements in different market segments from network infrastructure, data center switches, core switches, access switches, and indoor/outdoor wireless access points.

## EDIMAX TECHNOLOGY CO., LTD.

[marketing@edimax.com.tw](mailto:marketing@edimax.com.tw)  
 886-2-77396888#6597

### Company Info

Since 1996 Edimax is one of the global leading brand for networking solution provider. The Edimax brand concept is to provide users with convenient networking communications solutions and modern, innovative design. Edimax high-tech networking products are easy to use and price competitive, becoming part of millions of users' daily network communication lives. As leading experts in the networking industry, Edimax is committed to the design, development and promotion of global networking and mobile communication products. Edimax's simple, user-friendly and innovative user interface, as well as cloud technology and energy-saving green technology make network communications products smarter, easier and more convenient. Edimax products are differentiated as simple, smart and environmentally friendly - providing a unique experience for each user and enriching life with mobile network communications.

### Product Info

The new generation AI-1001W V3 adapts a world's first slide-in chassis modular sensor design that helps users check and maintain the sensor with ease. Edimax continually implements the EdiGreen living lab with city governments and researchers , to bring the new AirBox with innovative designs of flexible modularity features, complete cloud services , and optimized display system by IoT technologies.

**ELITEGROUP COMPUTER SYSTEMS CO., LTD. A05**

[www.ecs.com.tw](http://www.ecs.com.tw) | [CMKT@ecs.com.tw](mailto:CMKT@ecs.com.tw) | 886-2-21621177

**Company Info**

Elitegroup Computer Systems as known as ECS, was established in 1987. ECS's has expanded our business model from motherboards and PC manufacturer to All-in-One PCs, notebook computers, Mini PC, mobile devices and voice-activated devices. And now ECS as a total solution provider, also provide AI with edge computing solution and IoT, IoV solutions. ECS as a leading and veteran manufacturer, keeps developing all kinds of solutions to the markets and our customers. With over 30 years of experience, ECS not only produces high-quality products, but also provides customized computer programming and hardware / software design service for our customers. It has consistently directed this devotion to computer product design and manufacture as well as the enrichment of human life. Therefore, ECS is strongly committed to developing cutting-edge technology in order to create innovative products under environmentally friendly designs. ECS's comprehensive quality control system ensures all of ECS products can be counted on for stability and reliability.

**Product Info**

**Q series: LIVA Q**

The pocket-sized LIVA Mini PC is the smallest mini-pc in its kind, and it comes with a VESA mount, allowing users to hang/hide the mini-pc behind monitors/TVs, ideal for those working with limited spaces and perfect for those who wants to replace their bulky HTPC and enjoy 4K quality media entertainment at home.

**ENERGY MANAGEMENT SYSTEM CO., LTD. B01**

[www.ems.com.tw/en](http://www.ems.com.tw/en) | [a99102@ems.com.tw](mailto:a99102@ems.com.tw) | 886-963759377

**Company Info**

EMS (Energy Management System) Co., Ltd., has 28 years of experiences in designing & manufacturing smart metering technology and complete AMR (automated meter reading) solution including Wired/Wireless IoT technology. EMS has acquired both ISO and WRAS certificates, innovative patents, and developed ISO-approved test rigs to serve the clients from commercial, industry and water utility sectors.

**Product Info**

**SMART WATER METER**

1. ISO 4064 certified with R160/R250 performance
2. Battery lifespan up to 12 years
3. Daily/Monthly consumption logs
4. Leakage, tamper, totalizer functions
5. AMR enabled-wired/wireless
6. Taiwan excellence award recognition
7. WRAS certificate

**Company Info**

Ever-Clear, as a water treatment total solution provider, offers customers the service of water treatment evaluation/ design/construction/ commissioning. Ever-Clear is specialized in wastewater treatment and develops several patent wastewater treatment reactors. Ever-Clear is willing to provide its service globally and at present its references are mainly in China, Southeast Asia and middle East, and even as far as Africa and Latin America.

**Product Info**

1. Wastewater treatment plant turnkey/ design/construction/ supervision/ commissioning
2. Patent wastewater treatment equipment
  - (1) Refractory/High COD WW Treatment: Fered Fenton
  - (2) Anaerobic Biotreatment: UASB (Up-Flow Anaerobic Sludge Bed)
  - (3) Tertiary Treatment: FBR-Fenton (Fluidized-Bed Fenton Reactor)
  - (4) Nitrification/Bio-polishing Unit: BioNET
  - (5) Denitrification: AFB (Anaerobic Fluidized-Bed)
  - (6) Ion Recovery: FBC (Fluidized-Bed Crystallization)

**GOOD WILL INSTRUMENT CO., LTD.**

**C01**

[www.gwinstek.com](http://www.gwinstek.com) | [marketing@goodwill.com.tw](mailto:marketing@goodwill.com.tw) | 886-2-22680389

**Company Info**

Founded in 1975, Good Will Instrument Co., Ltd was the first professional manufacturer in Taiwan specializing in electrical test & measurement instruments. GW Instek began as a manufacturer of power supplies and quickly expanded into the development of high precision electronic test and measurement instruments.

After decades of experience in the test and measurement industry, GW Instek has grown to become the largest manufacturer and developer of test and measurement instruments in Taiwan. Today GW Instek has more than 300 product items, ranging from oscilloscopes, spectrum analyzers, signal sources, basic test & measurement instruments to video surveillance systems. GW Instek has also seen its present growth internationally. With headquarters located in Taipei, Taiwan, GW Instek has subsidiaries in mainland China, America, Japan, Korea, Malaysia and India; its products are sold to more than 80 countries worldwide.

With a strong focus on high quality, economical measurement solutions for the educational and industrial manufacturing markets, Good Will Instrument has developed a solid brand image and reputation for reliability, integrity and innovation. From its inception, GW Instek has dedicated itself to becoming a professional electronic test and measurement designer and manufacturer, resulting in a number of national awards and the trust of customers world-wide.

GW Instek has been a byword for quality electronic test & measurement instruments due to its decades of experience in R&D, marketing and manufacturing. GW Instek's reputation has been built upon the philosophy of integrity, quality, and creativity as well as the accumulation of years of experience. Focusing on the improvement of R&D, manufacturing and marketing competitiveness, GW Instek will continue to be one of the most reliable, trusted brands creating the highest value for customers.

**Product Info**

**Safety Analyzer GPT-12000 Series**

- 200VA AC Test Capacity
- 7" TFT LCD
- True RMS Current Measurement
- Controllable Ramp-up & Ramp-down Time
- Capacitive Load Testing Capability up to 47µF
- Statistics Function
- Sweep Function for DUT Characteristic Analysis
- USB Storage available
- Comply with IEC 61010-2-034
- Manual / Auto Mode
- Zero Crossing Turn-on Operation

**HANSON PLASTIC INTERNATIONAL CO., LTD.**

**A14**

[flower.xboss@msa.hinet.net](mailto:flower.xboss@msa.hinet.net) | 886-2-26106628

**Company Info**

HANSON PLASTIC INTERNATIONAL CO., LTD. was founded in Taiwan in 2004, as a professional manufacturer, exporter, OEM and ODM company with high quality and competitive price for acrylic injection products. Our professional and dedicated team provides integrated and flexible services while coordinating every aspect of clients' sourcing, product design, sampling, mold making, OEM/ODM manufacturing, QA/QC, and shipping consolidation needs. Our primary focus is on producing housewares, kitchen supplies, toiletries and supplies to five continents. In the year 2019, HANSON started cooperation with Taiyao Nanotechnology Company Ltd. Together we developed a new product, "John M Nano air circulation purifier", with HEPA 12 filter media, which has been tested at Nelson Lab and performing in compliance with US FDA GMP regulations, effectively preventing harmful PM 2.5 air pollution.

**Product Info**

**John. M Nano air circulation purifier**

John M Nano air circulation purifier has multinational patents, suitable for indoor space less than 120 square meters. It has 2 DC motors and in and out air circulation, which allow indoor environment to sustain fresh clean air and avoid oxygen deficiency problems. Two individual detectors with auto detection functions, monitoring and detecting PM2.5 and PM0.3 micro-particles, sustaining air quality within 5ug/m<sup>3</sup>.

John M Nano air circulation purifier uses dual certified HEPA 12 filter media, which has been tested at Nelson Lab and performing in compliance with US FDA GMP regulations. Viral filtration efficiency at increased, challenged level tested at Nelson Lab was 99.994% and 0.075um particle size filtration efficiency tested at Nelson lab was 99.786%

The purifier has incorporated AI technology which alerts filter replacement to always sustain fresh clean air indoors.

## MAHARASHTRA INDUSTRIAL DEVELOPMENT CORP. (MIDC)

A12

[www.midcindia.org/home](http://www.midcindia.org/home) | 91-22-26870052

### Company Info

Maharashtra Industrial Development Corporation (MIDC) was Established in 1962, under M.I.D. Act 1961 as the premier industrial infrastructure development agency of Government of Maharashtra.

### The organization is based on 3 major objectives:

- Set up industrial areas for planned and systematic industrial development.
- To function as a special planning authority in development of industrial areas
- "Prosperity to all through Industrialization" is the corporate Philosophy of MIDC

### Some of the achievements of MIDC are:

- Built 289 Industrial Areas with 66273.82 hectares of land. (Approx.)
- Developed specialized parks for different industrial sectors including IT, BT, Special Economic Zones
- (SEZ), Wine (Grape Processing) Park, Silver Zone, Gems

## MAHARASHTRA POLLUTION CONTROL BOARD (MPCB)

A13

[www.mpcb.gov.in](http://www.mpcb.gov.in) | 91-22-24020781

### Company Info

Maharashtra Pollution Control Board (MPCB) is implementing various environmental legislations in the state of Maharashtra, mainly including Water (Prevention and Control of Pollution) Act, 1974, Air (Prevention and Control of Pollution) Act, 1981, Water (Cess) Act, 1977 and some of the provisions under Environmental (Protection) Act, 1986 and the rules framed there under like, Biomedical Waste (M&H) Rules, 1998, Hazardous Waste (M&H) Rules, 2000, Municipal Solid Waste Rules, 2000 etc. MPCB is functioning under the administrative control of Environment Department of Government of Maharashtra.

### Some of the important functions of MPCB are:

- To plan comprehensive program for the prevention, control or abatement of pollution and secure executions thereof,
- To collect and disseminate information relating to pollution and the prevention, control or abatement thereof,
- To inspect sewage or trade effluent treatment and disposal facilities, and air pollution control systems and to review plans, specification or any other data relating to the treatment plants, disposal systems and air pollution control systems in connection with the consent granted,
- Supporting and encouraging the developments in the fields of pollution control, waste recycle reuse, eco-friendly practices etc.
- To educate and guide the entrepreneurs in improving environment by suggesting appropriate pollution control technologies and techniques
- Creation of public awareness about the clean and healthy environment and attending the public complaints regarding pollution.

**MEAN WELL ENTERPRISES CO., LTD. (Headquarters)**

**A07**

[www.meanwell.com](http://www.meanwell.com) | [info@meanwell.com](mailto:info@meanwell.com) | 886-2-22996100

**Company Info**

Founded in 1982, MEAN WELL is one of the world's few manufacturers dedicated to standard power supply products. It is ranked the 5th in global power supply (DC output) makers according to a report by Micro Technology released in March, 2019. 99% of MEAN WELL sales are of standard power supply products sold under the MEAN WELL brand name. MEAN WELL has been working as a "reliable partner" with customers, suppliers, contractors, and employees to build long lasting mutual trust relationships based on the spirit of "good intentions".

Thanks to robust partnerships with 200 plus authorized distributors around the world, MEAN WELL has been growing and getting stronger for three decades. With 2,800 employees located at its global headquarters in New Taipei Industrial Park, Taiwan, branches and sales offices at Guangzhou, Shenzhen, Suzhou in China, California USA, and Netherlands in the EU, three advanced production bases in New Taipei City (Taiwan), Huadu District in Guangzhou, and Suzhou City in China, MEAN WELL had a combined revenue of USD 1,007 million in 2018.

**Product Info**

**The unrivaled LED Power Supply -XLG Series**

For LED luminaires application, MEAN WELL officially releases the new generation waterproof LED driver series—XLG series. The whole XLG series, which has been highly expected by the market, covers from 25W to 240W. It can be used for LED Bay light/Streetlight/Horticulture lighting and flood light applications. XLG series applies the constant current and constant power design, which remarkably enhances the convenience of integrating model selection. The design of XLG Series brings the benefits in reducing the confusion of model selection and stock pressure aspects.

## ORING INDUSTRIAL NETWORKING PRIVATE LIMITED

A01

[www.oringnet.com](http://www.oringnet.com) | [sales.india@oringnet.com](mailto:sales.india@oringnet.com) | 886-2-22181066

### Company Info

Founded in 2005, ORing specializes in developing innovative own-branded products for industrial settings. Over the years, ORing has accumulated abundant experience in wired and wireless network communications industry. ORing has stretched its arm into the IIoT field, helping customers realize all kinds of IIoT applications such as smart manufacturing, smart city, and industrial automation. With high product quality and best customer services in mind, ORing has continued to launch cutting-edge products catering to customer needs.

### Product Info

- Powerful all-in-one industrial gateway solution for Edge to Cloud IIoT applications
- Industrial grade design compliant with the requirements of IEC 61850-3
- Support redundant/load-balanced 4G LTE connection certificated by AT&T
- Provide built-in 8-port Gigabit Ethernet switch with 4x10/100/1000Base-T(X) and 4xGigabit SFP Combo ports
- Support 2x Serial ports: RS-232/422/485 in DB9 connector and RS-422/485 in terminal block
- Support ORing Open Gateway (protocol converter) software feature for easy and quick IIoT deployment
- Inductive Automation Ignition/Ignition Edge on board - powerful, web-deployed industrial application platform for HMI, SCADA, MES and IIoT with MQTT connections
- Node-RED on board for data flow design and rapid prototyping
- Support MQTT/Sparkplug B and CoAP IoT protocols

### Company Info

At TSC Auto ID Technology Co., Ltd. (TSC) we specialize in the research and development, manufacture and marketing of barcode printers. Our commitment to product quality is recognized by our loyal customer base and partner network around the world and has solidified our reputation as a world class printer manufacturer. Whether it is desktop, industrial, mobile barcode printers, print engines and color printers, as well as its accessories and supplies, TSC products stand out for their user-friendly design, stable operation and unmatched durability. We are convinced that only excellent quality and dedicated service will earn lasting trust and praise from customers. Our dedication to our customers' satisfaction and success is what drives the growth of TSC.

### Achievements

- 5 million barcode printers installed worldwide
- Top-5 global barcode printer manufacturer
- 3 decades of delivering reliable & affordably printers

### Product Info

Industrial Barcode Label Printer :

#### Small Footprint and Rugged Design

- Weight: 39% less, size: 30% smaller than TTP-246M Pro

#### 3.5" Intuitive Color Touch Display

- Ease of use 3.5" touch color GUI display and intuitive indicators

#### Flexible & Advanced TPH Mechanism

- Flexible TPH pressure adjustment & adjustable heat line
- Reinforced TPH module hook
- Wide open angle for media handling

#### Versatile Availability of Connectivity

- Standard USB, USB Host, Serial and Internal Ethernet
- Optional seamless 802.11 a/b/g/n wireless slot-in module or internal steady Bluetooth 4.2 interface

#### One Step to Quick Setup/ Update

- Scan 1D/2D Barcode to setup or clone the configurations in one step

### Company Info

To help Taiwanese suppliers explore new opportunities in India, the Taiwan External Trade Development Council (TAITRA) has established 3 "Taiwan Product Centers" in the Indian cities of Mumbai, Chennai, and New Delhi. TAITRA has hired 4 project managers to head the project in India. The project managers have been professionally trained by the suppliers in Taiwan, and are now proactively developing opportunities and visiting potential buyers after their arrival in India. The project managers also arrange video procurement meetings between Indian buyers and Taiwanese suppliers. Already, several Indian companies have shown interest in the products and have sent inquiries. For e-marketing, there is a well-designed Taiwan Product Center website, on which the Indian buyers will have better knowledge about the products of the Taiwanese suppliers in the project. Please surf on <http://tpcindia.taiwantrade.com> for more details. All Indian companies are welcome to build business relationships with trusted Taiwanese partners through this platform."

Medical support (diabetes) foot's sock : White bamboo charcoal is detect and has antibacterial effects in patients with any bleeding. The sock design uses a tension-free weave method that does not impede blood circulation. PU rubber blocks can also be slippery to stimulate acupuncture points to increase blood circulation, magic sticky deduction ring woven design, easy to off the arch fixed to prevent shedding, indoor protective socks

## WEST BENGAL ELECTRONICS INDUSTRY DEVELOPMENT CORPORATION LIMITED

B11

[www.webel.in](http://www.webel.in) | [contact@webel-india.com](mailto:contact@webel-india.com) | +91 33 2339 2234

### Company Info

Webel was incorporated on 4th. February, 1974 to shape the Electronics Industry in West Bengal. The past few years have witnessed a gradual acknowledgment of the strategic advantages of Bengal, a maturing socio-political attitude & an appreciation of the proactive efforts by the Government & other key stakeholders to further strengthen Bengal's value proposition & reinforce its position as a destination of corporate choice.

In line with the vision of the Government of West Bengal, Webel has been consistently playing a pioneering role in Infrastructure Development & Management, Training and Skill Building, IT Promotion and initiating several E-Gov projects in West Bengal.

In the arena of IT Training and Capacity Building, Webel has been spearheading several initiatives. The Diploma and certificate courses in software, hardware and networking offered along with Webel Informatics Limited as well as the courses in animation offered at the Webel DQE Animation Academy are bearing much fruits. Yet another step in this direction is the 'Fujisoft - Vara Centre of Excellence for Emerging Technologies, wherein around 2500 participants in a span of 5 years would be trained in cutting-edge technologies.

Bengalathon - A national platform for showcasing solutions developed by startups - another brainchild of Webel, is currently in its 3rd year of operation and has been witnessing immense interest and traction within the startup community. This year, Bengalathon is all set to Go Global.

To push the envelope even further, Webel has already developed 2 state of the art Electronics Manufacturing Clusters (EMC) at Naihati and Falta, with comprehensive ecosystems, ready to be occupied. Similarly the Hardware Park at Sonarpur is ready to be allotted to resourceful industries/ entrepreneurs for setting up manufacturing units in the field of Electronics & Telecommunication and Renewable Energy. Another hardware park at Kalyani is also in the works.

In order to create multiple local destinations for IT employment beyond Kolkata, Webel has been operating 17 IT parks housing 260 companies, across West Bengal.

Bengal Silicon Valley - our ambitious effort to enable global software and IT companies to setup their bases in Kolkata has been witnessing immense response. Out of 174 Acres of land provisioned for allotment in Bengal Silicon Valley IT Hub, 117 Acres of land has already been applied for by eight companies, in the first two phases. As a result, the first and second phase of land allotment are over and the project is currently in its 3rd phase of land allotment.

Since 01.01.2018, e-Office has been implemented in all 50 Secretariat departments, 89 directorates & parastatals and 3 districts. In this financial year (2019-2020) e-Office applications have been made accessible through open internet from 15.04.2019. Webel through its partnership with Airtel has also been offering quality internet connectivity to corporates, educational institutions, hospitals and many other organisations across the state.

With the proliferation of data and technology in India and its massive interplay in citizens' lives, cyber-attacks are not a distant possibility but an impending reality. A 'Cyber Crime Response training' curriculum has therefore been prepared in consultation with Home Dept, WB Police, Kolkata Police & CISO WB wherein 2 lakh police personnel will be trained on Cyber Crime Response. Around 5000 police officials from each police station will be trained in the 1st phase of the training starting on 25th June 2019.

Numerous other IT and infrastructure related projects / initiatives are in the pipeline. However, at this moment, it is safe to say that the future is exciting for IT and Electronics in West Bengal.

### Department of Information Technology & Electronics, Government of West Bengal

West Bengal is a vibrant state with unique culture and traditions. In recent times, the state has witnessed rapid strides in Information Technology. During the past years Bengal witnessed continuous growth to emerge as an attractive IT investment destination. Quality infrastructure, low cost

of operations, strategic location, forward looking government policy and a large and diverse talent pool have made the State an ideal business destination. The talent of Bengal attracts many companies to the state. The State Govt. has taken many proactive steps to meet the increasing industry demand for trained quality manpower. Training Centres in the Districts and propagation of ICT Tools in education, addresses this need.

Indian Institute of Information Technology (IIIT) has been established at Kalyani by Government of West Bengal in collaboration with Government of India and selected industry partners. The work of building its own campus has started. The Indian Institute of Technology, Kharagpur is the mentor Institute which is giving support to the faculty and assisting in curriculum development.

The Department has taken up multiple visionary initiatives. These include Bengalathon, a state level Hackathon which will empower citizens to collaboratively solve real life problems, Cyber Security Centre of Excellence is being operationalised. Webel Animation Academy, Webel Fujisoft Vara Centre of Excellence - Industry 4.0, a Centre of Innovation is upcoming. There has been establishment of IT Parks across the State. Hardware Park at Sonarpur is ready and one at Kalyani is upcoming. Electronics Manufacturing Clusters in Falta and Naihati are upcoming. A series of path breaking events in emerging technologies like Artificial Intelligence, Blockchain and Cyber Security have been carried out.

Webel is the nodal agency for the Department of Information Technology and Electronics and plays an important role in implementing the IT policies and programs. It assists the state Government in facilitating the growth of the industry by taking a host of measures, such as ensuring the availability of quality infrastructure in the form of land/ buildings for the investors, ensuring last mile connectivity and facilitating processes of clearances that are required for relevant businesses. Thus, Webel forms a single window to new investors and nurtures existing investors who are working in the State.

## WINTEC CO., LTD.

C09

[www.win-tec.com.tw](http://www.win-tec.com.tw) | [sales@win-tec.com.tw](mailto:sales@win-tec.com.tw) | 886-2-82273319

### Company Info

Wintec started as an electronics factory in 1991. Wintec is an engineering-base company with extensive experience in product development. We have undergone a series of technical revolution with innovative researches in wireless application, and now become a well-established manufacturer with expertise in wireless technology.

Follow the trend of the Internet of Things (IoT) technologies, we established a new RFaaS(RF as a service) business unit and focused on the various wireless applications as NB-IoT / LoRa / Bluetooth / DALI Lighting / AIS / RF Radio / GPS...and offered OEM / ODM service.

Wintec has established the belief of "Win by Technology". The stable, special, and solid product features are our lasting pursuit goal in the process of development.

Our company strategy emphasizes the "altruism". We take designing the product and taking the quality as our responsibility for the customer satisfaction.

### Product Info

WW-5D2X is a Narrowband IoT (NB-IoT) to RS-485 outdoor wireless gateway.

It connects to the established mobile network devices more simply and more efficiently and transmits low and intermittent data securely and reliably.

WW-5D2X provides the RS-485 MODBUS RTU industrial interface that connects to the existing industrial control host (ex. PLC). Up to 5 Ports Analog inputs and digital inputs/outputs support external sensors to connect and trigger external devices.

Supply 5 independent 10V DC/50mA output powers for use in external subunits, it is ideal for multiple sets of equipment in the Industrial IoT.

## WISECHIP SEMICONDUCTOR INC.

C14

[www.wisechip.com.tw](http://www.wisechip.com.tw)  
3140@wisechip.com.tw  
886-3-7587168

### Company Info

WiseChip is Taiwanese PMOLED solutions provider, fully demonstrates the strengths in terms of ease of customization and high-CP values and have brought more imaginative applications to the market.

WiseChip is a market leader in Transparent OLED, Bendable OLED, Touch OLED, Monochrome OLED, Character OLED, Area Color, Full Color, Custom design products, etc. It's headquartered in Taiwan has sales and distributors in Mainland China, Europe, U.S., Japan, Korea, Oceania, and the Middle East. WiseChip still continues to expand OLED applications markets and joint collaborations with clients as well as satisfy clients' specified product design requirements.

### Product Info

In-Cell Touch OLED : Lamination of the touch sensor onto the PMOLED is no longer required as the latter supports the touch function itself.

## COMPUTEX TAIPEI

### Company Info

COMPUTEX was established in 1981. For the past 39 years, the show has been growing and evolving with the ICT industry. It is now one of the leading ICT tradeshows in the world. COMPUTEX positions itself to Building Global Technology Ecosystems and focuses on 6 tech trends such as AI & IoT, 5G, Edge Computing, Cyber Security, Gaming, Innovations and Startups.

### Product Profile

The COMPUTEX d&i awards is organized by TAITRA with the intention to recognize tech products with excellent design and great innovation. A professional panel of judges, comprised of global ICT industry experts, top industrial designers, VCs and more will select from hundreds of entries based on the following criterias:

1. Information & Communication Hardware
2. Components & Peripherals for Information & Communication Hardware
3. Intelligent Automation / Robotics / Drones
4. IoT Devices & Applications
5. Innovative Information Application Software & Services
6. Gaming Hardware, Software & Peripherals
7. AR, VR Devices & Content
8. Startups

## AAEON

[www.aaeon.com/en](http://www.aaeon.com/en) | [LetitiaLee@aaeon.com.tw](mailto:LetitiaLee@aaeon.com.tw) | 886-937939851

### Product Profile

#### AAEON LoRa Node System

The AAEON LoRa Node is available as a board or with an enclosure. It can be powered by two 14500 Lithium-ion batteries, or through its micro USB 2.0 port. It features built-in temperature and humidity sensors, as well as a 3-axis accelerometer, and is designed to also connect with a wide variety of sensors and inputs.

#### AAEON BOXER-8110AI

The BOXER-8110AI is 40 mm thick, compact, and fits in the palm of a hand. It is made out of rugged and durable aluminum. It has a wide operating temperature range, able to work in climates as cold as -20°C to as hot as 50°C. The BOXER-8110AI doesn't sacrifice size for power. Combined with an on-board 8GB LPDDR4 memory, it is one of the leading low-power AI platforms.

## ACER INC.

[www.acer.com/ac/en/US/content/home](http://www.acer.com/ac/en/US/content/home) | [Amanda.Wang@acer.com](mailto:Amanda.Wang@acer.com)

### Product Profile

#### Predator Triton 900

The Predator Triton 900 is a gaming notebook in an inventive form factor with innovative new design features. It features a CNC-machined Ezel Aero Hinge™ that flips, extends, or reclines the 17-inch display. Users can switch between four usage modes: Display mode for sharing the screen with friends during gaming sessions, Ezel mode for playing games on the touch screen, notebook mode for traditional gaming scenarios, and stand mode.

#### Swift 7

The Acer Swift 7 is an ultra-portable PC design to new territories. The redesigned Swift 7 fits the latest tech into a chassis that is significantly smaller than its predecessor. The Swift 7 remains incredibly thin and light, measuring under 1 cm thin at 9.95 mm and weighing less than 1 kg at just 890 grams. Customers can stay more productive with a compact, thinner and lighter notebook that feels 'barely there' while carrying it around through the day and during business travel.

## Advanced Micro Devices

### Product Profile

#### MOVE WORKSTATION

Move Workstation is a gaming computer and the very epitome of our desire to bring together in one single computer all the elements to make it a unique mini-workstation. Imagine, 8th generation Intel® Core™ processor, Radeon™ RX Vega M graphics, NVMe PCIe M.2 SSD storage, Raid 1, etc ... No computer is comparable to the Move, and its ergonomic handle, integrated in its design allows you to carry it easily. The power of a Desktop Workstation PC, wherever you want it... when you want it!

## DARFON ELECTRONICS CORP.,

[www.darfon.com.tw](http://www.darfon.com.tw) | [Roger.Yeh@darofn.com.tw](mailto:Roger.Yeh@darofn.com.tw) | 886-960623635

### Product Profile

#### Wireless E-Sport mouse

This product has switchable top covers for different gestures: three top covers designed for different gamers demand and it is replaceable easily within 1 minute. It has adjustable stroking force of left and right buttons, dual mode connection, qi wireless charging.

## DELL TECHNOLOGIES

[www.dell.com/en-us?~ck=cr](http://www.dell.com/en-us?~ck=cr) | [us\\_sales@dell.com](mailto:us_sales@dell.com) | 1-800-357-3355

### Product Profile

#### Dell Inspiron 7000 2-in-1 Family

The new Dell Inspiron 13 and 15 7000 2 in 1 Black Edition laptops offer a new way to experience pen interaction in a convertible laptop with 8th Gen Intel Core processors and up to 16GB of DDR4 memory. Dell Inspiron 7000 2 in 1 laptops offer consumers a holistic solution enabled by thoughtful design, high performance engineering, and customer use case consideration all coming together in a great convertible laptop.

#### Dell XPS 13 2-in-1

The new Dell XPS 13 2 in 1 showcases an evolved design for the XPS line and features higher performance in a thinner enclosure as compared to the previous generation. It's packed with innovation where it matters, from incredible display technology to advanced thermal design to a miniscule camera, all thoughtfully designed to enable the best experiences.

## eTreego

[en.etreego.com](http://en.etreego.com) | [sam@etreego.com](mailto:sam@etreego.com) | 866-952451435

### Product Profile

#### E-scooter fast charger

eTreego's E-Scooter DC fast charger is with its own 4G network connection, international common charging interface and a number of safety protection functions that make the E-Scooter increase the cruising range of 50km in 6 minutes, and greatly shortening the previous 2-4 hours of charging time. Through the IoT network function, it also allows the user or the charging station operator know the charging status at any time.

## GEOSAT AEROSPACE & TECHNOLOGY INC.

[www.geosat.com.tw/TW/index.aspx](http://www.geosat.com.tw/TW/index.aspx) | [stan@geosat.com.tw](mailto:stan@geosat.com.tw)  
886-922906820

### Product Profile

#### ALPAS-II Shen-Nong

ALPAS-II is a helicopter built on GEOSAT Aerospace's years of experience and integrated into a lightweight, high performance UAV specially for smart farming/precision agriculture. Coupled with state-of-the-art flight control and sensors system, it allows precise spraying automatically that reduces the ineffective use of pesticide/fertilizer chemicals.

## GETAC TECHNOLOGY CORP.

[www.getac.com](http://www.getac.com) | [jerry.li@getac.com.tw](mailto:jerry.li@getac.com.tw) | 886-912757279

### Product Profile

#### Getac AIOT Body worn camera BC-03

Getac Body Worn Camera BC-03 is a wearable camera designed for police officer. The IP rating is IP67 with 6 ft drop test criteria. The BC-03 camera can be an AIoT device and connect to remote recognition system via LTE, and support real-time recording and video recognition, so this solution can improve efficiency and reduce crime rates.

## GIGABYTE TECHNOLOGY CO., LTD.

[www.gigabyte.com](http://www.gigabyte.com) | [benny.shieh@gigabyte.com](mailto:benny.shieh@gigabyte.com) | 866-2-89124000 # 1538

### Product Profile

#### AORUS AD27QD Tactical Monitor

AORUS AD27QD features a 27" QHD panel (2560x1440 resolution) in a 16:9 aspect ratio with a 144hz refresh rate, it gives you twice the details and display quality than Full HD, and allows you to enjoy games and movies in their original size. The AORUS AD27QD is one of the most responsive gaming monitors in the market. By accelerating the twisting speed of the liquid crystals, the response time can be reduced to 1ms(MPRT), and let you enjoy a fluent gaming experience without any ghosting effects. This feature is particularly useful with high tempo games!

## KIKAGO LIMITED

[www.kika.ai/#home-section](http://www.kika.ai/#home-section) | [jjkikago@gmail.com](mailto:jjkikago@gmail.com) | 886-924111216

### Product Profile

#### kikaGO NC Charging Cable

kikaGO Noise-Cancellation(NC) Charging Cable is the first smart accessory in the world that allows drivers to charge their phones and gain hands-free access to AI assistants or speech recognition apps while driving. This NC Charging Cable is able to filter out sound coming only from the driver side.

## MICRO-STAR INTERNATIONAL CO., LTD.

[tw.msi.com](http://tw.msi.com) | [jaywu@msi.com](mailto:jaywu@msi.com) | 886-919532916

### Product Profile

#### GS75

GS75 has a fresh & stylish appearance that overturns the imagination of a gaming laptop. The golden diamond-cutting trim sets off its mysterious-black sandblasting finish, golden dragon shield, and brings out the elegant shape of the ventilation outlet from side to the back of the laptop. The Ultra-thin bezel design provides gamers a fully-wide viewing space.

#### MS-9A79

MS-9A79 Palm-Size Embedded Industrial Box PC for IIoT Solution with Wide Temperature and Fanless Design

MS-9A79 industrial box design for all principle: high flexibility of antennas combination and overall in palm size to fit in various space and overcome space limitation. It is a user-friendly design in functionality: grinding each sharp corner to ensure users will be free from incised wound.

#### Prestige PS341WU

An asymmetrical circle and a curved line on the back of the Prestige PS341WU perfectly blends with the front symmetrical square. With 34" 5K2K Ultra-Wide resolution, DCI-P3 98% and Nano-IPS technology, it allows working simultaneously with hundreds of editing with accurate & perfect color.

#### MSI Trident X Plus

Trident X Plus is the world's smallest gaming desktop that breaks the established impression of gaming desktops. It is also the world's smallest gaming desktop to incorporate Intel® 9th gen Core i9 K CPU and the GeForce RTX 2080 Ti graphics card into a 10-liter-chassis.

### About the University

Chinese Culture University (CCU) established in 1962. With more than 26,000 students in 60 undergraduate programs, 39 master programs, and 10 doctoral programs, CCU has developed as one of the most prestigious comprehensive universities in Taiwan. CCU has a vast collaboration and network with top universities around the world. Ten percent of our students are international citizens from 40 different countries.

### Distinguishing Features

- (1) Exposure to Chinese Culture Atmosphere & Environment & Free of Charge 53 Mandarin Courses
- (2) Double Degree Program (2+2 Double Bachelor/1+1 Double Master)
- (3) Exchange Student Program: 382 Sister Universities in the world
- (4) Study Abroad Program (USA, UK, Italy, China, Korea, Japan etc.)
- (5) International internship program: China, Japan, Korea, Vietnam, Germany, France, Spain etc.)
- (6) International Voluntary Program: Cambodia, Thailand
- (7) Industry-University Cooperative Project
- (8) Different kinds of scholarship for international students

### Degree Programs

### About the University

Kaohsiung Medical University (KMU) was established in 1954. Apart from being the first private medical university in Taiwan, the university has also become an important cradle for highly-skilled physicians and medical related specialists. KMU is located in the city center of Kaohsiung, the biggest city in southern Taiwan, which provides all kinds of attractions and excitements of a modern city life.

KMU is equipped with 4+1 affiliated hospitals which not only provide comprehensive health care to the public but also offer integrated medical trainings to medical interns. The 4+1 affiliated hospitals offer great opportunities of clinical education, research and internships as well as development of medical scientific research for both senior and junior students.

### Research & Development

Now on KMU's campus, it has 9 University-Level Research Centers, 10 College-Level Research Centers as well as 4 independent graduate institutes. Kaohsiung Journal of Medical Sciences, a peer-reviewed publication of Kaohsiung Medical University, Taiwan, was launched in 1985 to promote clinical and scientific research in the medical sciences in Taiwan, and to disseminate this research to the international community of medical and health care professionals. It is published monthly by Elsevier. (Impact factor: 1.288) KMU put its full attention to the steadily evolving areas of basic medical science and clinical medical research. It has therefore laid a solid foundation as the leading medical institution in Southern Taiwan.

### Degree Programs, Short-Term Programs & Scholarship Opportunities

By setting up 7 Colleges, which are College of Medicine, College of Dental Medicine, College of Pharmacy, College of Nursing, College of Health Sciences, College of Life Sciences, and College of Humanities and Social Sciences, KMU provides a great number of different courses as well as scholarship opportunities for international students. ### About Nanhua University

Nanhua University is a member of Taiwan's first transnational university consortium under the Fo Guang Shan system. The aim of the consortium is to provide students with worldwide resources as well as create opportunities for international exchange and study.

The University currently has 5,600 students and 220 full time faculty members; 91% of the faculty are doctorate degree holders, a remarkably high percentage among private universities in Taiwan.

NHU has five colleges, namely Management, Humanities, Social Sciences, Arts, Science and Technology and boasts 20 undergraduate programs, 24 graduate programs and doctoral program.

All our programs are designed to be in tune with the needs of the international community and global industry. The university places great importance on general education and the humanistic spirit as such, and we also have the General Education Center.

## NATIONAL CHUNG CHENG UNIVERSITY

A15

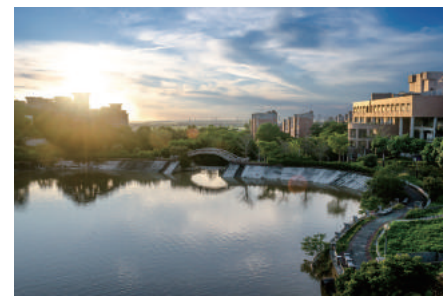

Office of International Affairs  
 Address: 168 University Rd.,  
 Min-Hsiung, Chia-Yi, Taiwan R.O.C.  
 Telephone: 886-5-272-0411 ext.17600-17607  
 Fax: 886-5-272-3673  
 Mail: [cia@ccu.edu.tw](mailto:cia@ccu.edu.tw)

Established in 1989, with seven colleges, including 29 departments, 48 Master Schools, 30 PHD, and 6 English Master or PHD degree programs. Albeit with the short history of 30 years, all faculties set up a comprehensive research university of Science and Humanities by overcoming the geographic constraints and obtaining academic and administrative team work.

CCU was ranked top 250 of Young University Rankings 2018 and have built strong partnership with more than 200 universities and institutions from over 25 overseas countries. In 2019, CCU was the first university to establish AI overseas research center in North India under the funding of Ministry of Science and Technology.

Facing future challenges, it is aggressively motivating certain projects such as Advanced Institute for Manufacturing with High-tech Innovations, drug abuse prevention and aging population society. It expects to integrate the cross-field cooperation on a macro scale and under the innovative plans, and to consolidate possible resources externally with industry chain, developing innovation and entrepreneurship. It strives to be one of the top international research universities.

## NATIONAL SUN YAT-SEN UNIVERSITY

A15

Office of International Affairs,  
Tel: +886-7-525-2632  
E-mail: oia\_degree@mail.nsysu.edu.tw  
Admission Info: <http://bit.ly/admissionNSYSU>

Since its establishment by the government in 1980, National Sun Yat-sen University has grown to be among the top 500 universities in the world and has assumed the role as the academic hub in southern Taiwan. NSYSU is a highly research-oriented university where graduate students constitute half of the student population.

The NSYSU campus sits in the scenic Sizih Bay of Kaohsiung, a unique location surrounded by the ocean and the mountains. Its privileged setting provides an unrivaled experience for students and faculty/staff studying and working in the university.

NSYSU welcomes International students to our beautiful campus for a degree or short-term study/research. Students enjoy learning and life in an international and friendly environment where they are encouraged to join the double-degree or exchange programs at our partner universities. They can also participate in a variety of activities with local students and gain a deeper understanding of Taiwanese culture.

**6 Colleges** Engineering, Science, Marine Sciences, Management, Liberal Arts, Social Sciences

**Scholarships** Available for all study levels. PhD students are guaranteed tuition waivers with monthly allowance.

### On-campus Housing

Student dormitories are available for all international students. Concerning various dietary needs, each dorm area is equipped with shared kitchen.

### UNVIERSITY PROFILE

National Tsing Hua University (NTHU) is a research university with a long and proud history. First established as the Preparatory School of Studying Abroad to America at Tsing Hua Garden in Beijing in 1909, and then renamed as Tsing Hua Academy in 1911. NTHU was reinstated in Taiwan in 1956 by the original President Yi-Chi Mei (1889-1962) with the support of the Tsing Hua Foundation. Over the last sixty years, NTHU has developed from an institute focusing on nuclear science and technology to an institute that offers degree programs ranging from baccalaureate to doctorate in the fields of science, technology, engineering, humanities, social sciences, management, arts, as well as education. Regarded as one of the top research universities, our research and development activities across the University emphasize fundamental discoveries at the forefronts of basic sciences and exploration of breakthrough technologies with a high potential for applications.

### DISTINGUISHING FEATURES

In the fields of Engineering, NTHU is one of the most prestigious universities in the world. In 2019, NTHU is ranked within the top 200 in the QS World University Rankings, put NTHU 163th overall. NTHU is also ranked 32 in the QS World University Rankings: Asia.

NTHU has signed International Cooperation Agreements with 320 universities; over 50 countries from Asia, America, Africa, Europe, and Oceania. With more than 200 successful international exchange cases and 27 Dual Degree Programs, NTHU provides diverse academic choices that allow students to strive for excellence.

## NATIONAL YUNLIN UNIVERSITY OF SCIENCE AND TECHNOLOGY (YUNTECH)

A15

Office of International Affairs

Tel: +886-5-534-2601#2392, 2393 Fax: +886-5-537-7453

E-mail: tdx@yuntech.edu.tw / tdi@yuntech.edu.tw

### Brief Information

Founded in 1991, National Yunlin University of Science and Technology (YunTech) is a flagship technological university with five colleges, the College of Engineering, College of Management, College of Design, College of Humanities and Applied Sciences and College of Future. These colleges account for 22 undergraduates, 26 masters' and 13 doctoral programs. The student population is approximately 10,000.

### Innovative Education System

1. YunTech encourages each department to be accredited by the Institute of Engineering Education Taiwan (IEET) and the Association to Advance Collegiate Schools of Business (AACSB). It has become a successfully internationalized university with seven departments having earned professional accreditations. The College of Management has accredited by the AACSB in 2014 and 2019.
2. YunTech has developed interdisciplinary industrial curriculum modules with the collective efforts from inter-departmental colleges, the PBL Center and College of Future.

### Distinguishing Features

We intend to resolve domestic, industrial, social and global issues through the use of educational and R&D resources. We will continue to strive forward with innovation and transformation as our main strategy in order to achieve our goal as becoming a "pragmatic and practical paragon of all universities of science and technology".

## SOOCHOW UNIVERSITY

A15

International Affairs Center, SU

Tel: 886-2-2881-9471 ext.5369

Email: icae@scu.edu.tw

Website: <https://www-en.scu.edu.tw/>

Website: <http://icae.scu.edu.tw/en> (ICAE);

<http://mandarin.scu.edu.tw/index.php/en/> (CLC)

Soochow University (SU), founded in 1900 in Suzhou, was the first western-style in China. After it was re-established in 1951, SU became the first private university in Taipei, Taiwan, with 6 schools, 23 departments and 54 full-time degree programs. The student population has also exceed 15,000 and international students is around 1,000 per year. Also, SU is active in international cooperation so as to build up a learning environment of high quality internationalization.

### Highlights of Internationalization, SU

- The School of Business acquired the AACSB accreditation in 2017
- The first and only School of Big Data Management in Taiwan
- English Taught Graduate Program- Global Business Program

### Schools and Department

- School of Big Data Management
- School of Business  
Accounting, Business Administration, Computer Science and information Management, Economics, Financial Engineering and Actuarial Mathematics, International Business
- School of Foreign Language and Cultures  
English Language and Literature, German Language and Culture, Japanese Language and Culture
- School of Law
- School of Liberal Arts and Social Sciences  
Chinese Literature, History, Human Rights, Music, Political Science, Philosophy, Social Work, Sociology
- School of Science  
Chemistry, Mathematics, Microbiology Physics, Psychology

### Chinese Language Center

Founded in 2013, Chinese Language Center(CLC),Soochow University is a government-certified center for teaching Chinese as a foreign language training program. Why choose the Chinese Language Center at SU?

- Living Combined with Learning
- Various Option of Course Levels
- Tutoring System
- Customized Programs

## TAIWAN EDUCATION CENTER IN INDIA

A15

<https://www.facebook.com/tecindia>  
 Program Office of Taiwan Education Center in India at National Tsing Hua University  
 Tel: +886-3-5162596  
 E-mail: [tecindia@nthu.edu.tw](mailto:tecindia@nthu.edu.tw)

### Purpose

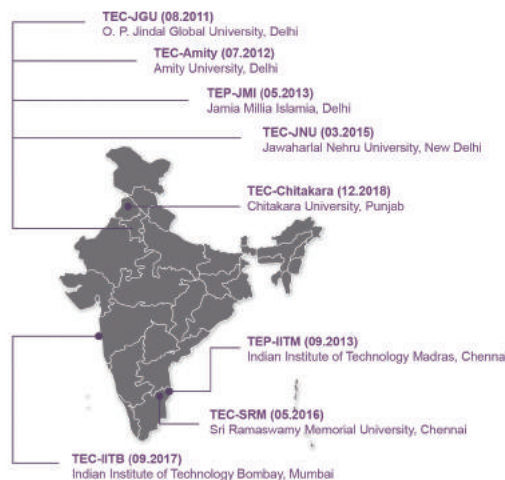

TEC in India not only provides foreign students information of studying in Taiwan colleges and study tours, but holds admission seminars, overseas educations, and offers direct and integrated advisory service to students who have interests in studying in Taiwan. We also cooperate with MOE's (Ministry of Education) Mandarin education policy towards foreign students, providing Mandarin courses and TOCFL (Test of Chinese as a Foreign Language).

### Basic Profile

NTHU (National Tsing Hua University) has the most Indian sister universities and the second most Indian students among all the universities in Taiwan. Since 2011, instructed by MOE, Program Office for Taiwan Education Center in India was set up in NTHU. In India, we have set up program offices for TEC at seven local universities or institutes respectively and there are currently 10 Mandarin Instructors in total giving courses; over the past 8 years, there have been more than 7,000 Indian students taking the courses.

### Goal

1. Encourage Indian students to study in Taiwan
2. Narrow the culture gap between India and Taiwan / Reserve Indian talents for Taiwanese company's developing in India
3. Share cultures and values of Taiwan
4. Promote communication in various aspects between Taiwan and India through education.
