Welcome

Dear Visitor,

On behalf of the organizer, we would like to extend our warmest welcome to your visit to the first edition of Taiwan International Water Week (TIWW 2019). The trade show showcases a comprehensive array of products, services, and the latest smart technologies of the entire water value chain. The platform offers top government officials, industry leaders, water professionals, and enterprises to source total water solutions, converge and establish business and networking opportunities simply under one roof.

The water scarcity, coupled with drastic climate change, keeps hitting news headlines and reshaping lives and cities all over the world with unprecedented and extensive devastation. However, the water crisis also provides water professionals with crucial opportunities to join global government contracts and tenders. In addition, with a combination of IoT and ICT strengths, Taiwan excels in smart water technologies with annual exports of pumps, valves, pipes, meters and water purifiers exceeding US\$2 billion. In Taiwan, the investment in water infrastructure is targeting smart water management and water reclamation, which will be supplying 10% of all water resources on the island by 2030.

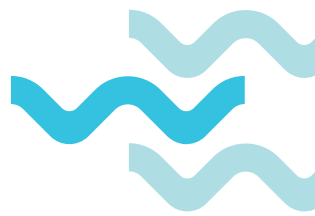

You may be able to find the highlights:

- Smart water solutions
- Advanced wastewater treatment technology
- Renewable water resources
- An international forum, "Water for the Future", organized by WRA, MOEA

Aside from the initiatives, several events, including government contractor procurement meetings, 1-on-1 business matchmaking meetings, seminars and hot product launches, will be held during the show. In conjunction with TIWW, the Circular Economy Taiwan and the Taiwan Innotech Expo will take place at the same time in the Taipei World Trade Center Exhibition Hall 1.

Enjoy the show, and have a great stay in Taipei!

Sincerely yours,
TAIWAN INTERNATIONAL WATER WEEK 2019 Team

水利產業主題館 “Water for the Future” Water Industry Pavilion

本次 Water for the Future 水利產業主題館整合 50 家廠商，共同展出「智慧水管理」、「高階水處理」及「水與生活」等三大主題。其中，智慧水管理展區主軸為「都市淹水整合解決方案」及「智慧調控供水解決方案」兩大亮點，高階水處理展區則以「節能」、「創能」、「淨水」、「物質流回收」等面向為展示重點，部分廠商更具備高科技產業所需之水質即時監控、分流管理及再生處理高階服務對策。在「水與生活」展區則是以水科技創新、節約用水、深層海水開發、建築雨水貯集等創新商品及服務切入一般生活市場。

The pavilion with the theme “Water for The Future” integrates 50 Taiwanese enterprises, collectively exhibits three themes: “Smart Water Management”, “Advanced Water Treatment”, and “Water and Life”.

Among the three exhibition themes, “Smart Water Management” is highlighted with two features: “Integrated Solutions of Urban Flooding Mitigation” and “Solutions of Intelligent Water Supply and Allocation”. In addition, the “Advanced Water Treatment” platform focuses on aspects including “Energy-saving”, “Energy-generating”, “Water Purification”, and “Material Flow Recycling”. Some of these enterprises demonstrate state-of-the-art strategies and services for the high-tech industries, including on-line water-quality monitoring, water diversion management, and reclaimed water treatment. Lastly, “Water and Life” displays innovative water technology, water-saving facilities, utilization of deep-ocean water, rainwater-harvesting of buildings and other cutting-edge commodities and solutions for daily consumer markets.
