

How to get to
Taipei Nangang Exhibition Center, Hall 1

Reserve Your Space Now!

To exhibit at Taipei PLAS 2020, simply scan the QR Code on the left and fill out the application form. Don't miss out the chance of showcasing your latest plastics and rubber related machines and equipment, materials, and products at this comprehensive procurement platform.

Dates & Hours

Sept. 9 to 13, 2020
10AM ~ 6PM

*Minors under 12 are not admitted to the showground

Venues

Taipei Nangang Exhibition Center, Hall 1
(TaiNEX 1)

TAIPEI PLAS 2020

Smart Manufacturing and Sustainability Takes Center Stage

The 17th edition of Taipei PLAS will be unveiled at Taipei Nangang Exhibition Center, Hall 1 (TaiNEX 1) from September 9th to 13th, 2020. With the theme of "Smart Manufacturing for Sustainability", this exhibition will showcase a full array of smart plastics & rubber processing machinery, equipment, plastics recycling equipment, cutting-edge materials and products, and fully present the complete supply chain and total solutions. Welcome to show your best products and solutions at Taipei PLAS 2020, Asia's leading trade show dedicated to the plastics and rubber industry.

Exhibit Profile

- Plastic & Rubber Processing Machinery
- Auxiliary & Peripheral Equipment
- Molds & Dies Mold & Die Related Equipment
- Raw Materials and Finished Products
- Automation and Industrial Robots
- 3D Printers
- Plastic & Rubber Recycling Equipment **NEW**
- Packaging and Printing Equipment **NEW**
- R&D and Innovations **NEW**
- Overseas Products
- Cross Strait Pavilion
- Associations & Media

Projected Scale

500 Exhibitors
2,700 Booths
20,000 Visitors

Activities

- ▶ 1-on-1 Procurement Meetings
- ▶ Seminars and Workshops
- ▶ New Product Launches
- ▶ Welcome Party & Innovation Award Ceremony

Smart Manufacturing & Circular Economy

Taipei PLAS 2020 introduces 3 new zones, 'Plastics & Rubber Recycling Equipment', 'Packaging and Printing Equipment', and 'R&D and Innovation', where exhibitors will showcase their newly developed products based on the concept of sustainability and smart manufacturing to reinforce the co-existence of economic development and environmental sustainability.

Technology Integration Enables Smart Manufacturing

Thanks to the maturity of automation and IoT technology, leading manufacturers have adopted robotic arms, data analysis, cloud computing, and remote monitoring and control to deliver smart manufacturing solutions to meet the rapidly changing market demands.

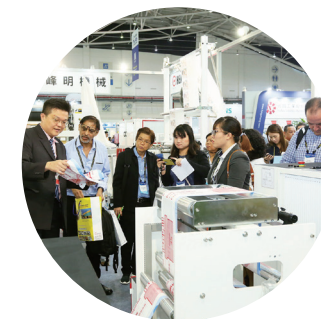

Innovation Paves the Way for Circular Economy

Raw material suppliers and plastic processing plants are proactively investing in creating recyclable and biodegradable materials and technologies for the plastics industry. Machinery makers also develop intelligent machines to reduce cost and material wastage to strive for sustainability and circular economy.

Taiwan Ranks the World's Top 6 Plastics and Rubber Machinery Exporter

According to TAMI, Taiwan Machinery Industry Association, there were about 300 plastics and rubber machinery manufacturers in Taiwan, with a production value of US\$1.43 billion in 2018. Taiwanese plastics and rubber machines are highly acclaimed for superior performance and durability by global buyers. Their export value recorded US\$1.17 billion and puts Taiwan on the map as the world's top 6 exporter.

Top 10 Exporting Destinations of Taiwan Plastics & Rubber Machinery
