TAIPEI CYCLE d&i awards 2021

Due to the impact of the global pandemic, the bicycle industry once fell into the difficulties of supply disruption and temporary loss of market in the first quarter of this year; however, as the world began to leave lockdown, bicycles have become one of the best exercises and commuting tools for social distancing. Thanks to the bicycle-friendly policies promulgated by various governments, bicycles industry benefits from the stay-at-home economy.

The New York Times reported on 12th June that "Corona Cycleways" has become a new commuting mode after the lockdown. Countries such as France, Italy and the United Kingdom are accelerating their biking infrastructure. Many countries are also subsidizing their people to buy and repair bicycles. The bicycle industry has shown a strong V-shaped recovery as a result.

Under the influence of the pandemic, the production activities in the factories, people's work patterns and even their ways of living concerning food, clothing, housing, transportation and entertainment have changed significantly. The lockdown and travel limit have temporarily mitigated global warming and brought back blue sky and white clouds to many cities that used to be under grey sky. In the post-pandemic era, bicycle riding will become another norm. Therefore, we hope that the bicycle industry is fully prepared for great innovations and design.

The 9th time Taiwan External Trade Development Council and Taiwan Bicycle Association has co-hosted the award, which has been well-executed by iF. We once again welcome companies and designers from all over the world to participate and wish you success in the awards.

2021 年台北國際自行車展 創新設計獎

2020 年因全球疫情影響，自行車產業於今年首季也曾一度陷入斷鏈與市場暫失的困境，然而隨著全球各地開始解封，自行車卻成了維持社交距離最佳的運動和通勤工具之一，受惠於各國政府友善自行車政策的推波助瀾，自行車亦成為自宅經濟中獲益的產業。

紐約時報 6 月 12 日報導，「新冠自行車道 (Corona Cycleways)」成為解封後的通勤模式。從法國、意大利到英國，許多國家都在加速自行車道的基礎建設，各國也對民眾購買與修理自行車進行補貼，自行車產業呈現 V 型反轉的強勢力道。

在疫情影響下，工廠的生產活動、人們的工作模式、甚至衣食住行育樂等生活型態都產生了顯著的變化。封城與旅行隔離措施讓地球暖化獲得短暫的舒緩，許多城市灰色的天空也乍現藍天白雲，後疫情時代，自行車的騎乘將成為另一種新常態，為此，期望自行車產業做好創新與設計之準備。

我們很高興第九次辦理由中華民國對外貿易發展協會與臺灣自行車輸出業同業公會委請 iF 所執行的「台北國際自行車展創新設計獎」，再次歡迎來自世界各地的公司和設計師的參賽作品，並預祝您成功順利。
