台灣國際醫療暨健康照護展 今(16)日開展 媒合健康醫療跨界商機

Medical Taiwan Kicks Off on June 16, Highlighting Cross-field Healthcare Biz Opportunities

新冠疫情爆發之初，世界各國積極防堵並尋求解方方案，運用新興科技研發各式預防、檢測及監控的醫材，時至今日，全球朝向與疫共存，防疫落實於生活，更成為了生活。外貿協會主辦的「台灣國際醫療暨健康照護展 (Medical Taiwan)」今(16)日起至18日連三天於台北南港展覽2館展出，主打疫情之下的生活革新，結合機械製造、醫療、紡織、化工、資通訊等各產業，媒合跨界商機。

外貿協會攜手台灣數位健康產業發展協會打造「健康生活，新日常 (New Healthcare, New Lifestyle)」情境館，華碩、緯創、宏碁、微星科技、雅博、聚陽、台灣康匠、豪紳纖維等14家知名科技、醫材、紡織大廠進駐，共展出19項產品，橫跨個人健康管理、科技防疫、遠距看診、智慧監測、照護輔具領域，實際模擬居家空間與醫院環境，真實呈現各項產品的落地應用，讓參觀者身歷其境感受科技結合健康的生活樣貌。

明(17)日舉辦的「Beyond the Medtech 醫健大未來」產業論壇以「未來」為題，邀請到醫院端、科技端、新創端專家代表剖析智慧醫療、遠距醫療及疫情所帶給醫療產業的挑戰與機會，全球知名醫療產業調研機構 Frost & Sullivan 也將在臺首次針對數位醫療產業分析未來趨勢與商機；此外，臺灣企業家以具備創新創業及冒險精神為名，成就一段經濟起飛的時代，然而也必需面對企業進入世代交替的轉型期，彰濱秀傳醫院及敏盛醫療體系將分享二代接班的創新經營管理之道，分享如何走過傳承，開創新局。

健康是生活中的重要資本，充足的營養、正常的作息與適當的運動是保存健康資本的不二法門，展中設「置智慧生理測量站」，提供參觀者測驗平衡、握力、腿力、肌肉量四大項目，不僅可評估自身的肌力狀態，找出健康訓練的方式，參加體驗活動還能獲得台灣國際醫療暨健康照護展限量口罩，為自身防疫加分。

今年展覽採線上線下 Hybrid 形式展出，實體展覽搭配為期2週的線上展覽，同時辦理視訊採購洽談會、Live Tour 展場直擊及國外媒體導覽等多元活動，協助參與業者持續深化國際鏈結，開拓商機。

During the period of uncertainty in which the COVID-19 pandemic first broke out, countries actively searched for preventive measures and solutions by applying innovative technologies and various preventive, inspective, and medical monitoring devices to combat the new, invisible threat. Over two years into the pandemic, the world is now seeking ways to co-exist with the virus.

Medical Taiwan, hosted by the Taiwan External Trade Development Council (TAITRA), kicked off today. It will be hosted for three days at the Taipei Nangang Exhibition Center, Hall 2, and for two weeks (June 9 – 23, 2022) for the online hybrid edition. The exhibition displays the lifestyle revolutions brought on by the pandemic, combining manufacturing, healthcare, textile, chemical engineering, and ICT industries, and promotes a platform to encourage networking across different sectors.

The exhibition's "New Healthcare, New Lifestyle" pavilion is a collaborative effort between TAITRA and the Taiwan Intelligence Healthcare Association, highlighting 19 products from 14 well-known brands, such as ASUS, Wistron, Acer, MSI, Wellell, Makalot, Taiwan Champ, and Asiatic Fiber. These products include personal health management, virus prevention technologies, telemedicine, smart monitoring, and assistive devices all presented in a simulated at-home and hospital environment.

The long-awaited "Beyond the Medtech" industry forum opens tomorrow, June 17, where experts from hospital management, technology, and startup backgrounds focus on the future of smart healthcare and telemedicine and on the challenges and opportunities brought on by the pandemic to the healthcare industry. In addition, a speaker from the globally-renowned Frost & Sullivan is also offering insights on future trends and opportunities in the intelligent, digital healthcare industry. Lastly, second-generation leaders in the hospital management and healthcare enterprises will also share innovative management practices and insights into advocating for a smooth leadership transition period.

New Healthcare, New Lifestyle Pavilion

健康生活 新日常

疫情來襲攪亂世界的平靜

抗疫過程趨動醫療產業翻轉新篇章

數位醫療加速躍進

問診及治療得已突破時間空間限制

健康照護可以從生活開始

「健康生活，新日常」情境館

區分居家與醫院兩大主題

從個人健康管理、科技防疫至智慧看診

匯聚 14 家廠商共計 19 項產品

帶參觀者體驗日常生活中的醫療革新

The pandemic has turned the world upside down. However, this phase has also helped the healthcare industry turn a new page, aiding the acceleration of digital health systems.

Diagnosis and treatment now are transcending the limitations of time and space.

Healthcare begins from our daily lives.

New Healthcare, New Lifestyle Pavilion features home care and hospital services.

From personal health management to technologies associated with pandemic control to smart consultation/diagnosis, we present a total of 19 products from 14 exhibitors.

These products will give visitors a deep dive into exciting innovations in daily healthcare.

Q0223a | 電刺激翹臀褲 EMS WIIM ProSports yoga pants

聚陽實業股份有限公司 MAKALOT INDUSTRIAL CO., LTD.  聚陽實業股份有限公司
MAKALOT INDUSTRIAL CO., LTD.

聚陽此次主推電刺激翹臀褲，為結合 EMS 肌肉訓練科技於智慧紡織領域的應用，是透過電流刺激皮下神經與肌肉群，帶動肌肉群運動收縮放鬆來鍛鍊不易訓練與缺少運動的肌肉群並達到強化肌肉的功效，透過 EMS 短時間即可獲得成效。

過去 EMS 在物理治療、肌肉復健與運動科學方面已經有數十載的歷史，聚陽將此技術引入智慧紡織領域，結合時尚的紡織元素，與輕薄無線材的特點，給使用者全新穿戴式 EMS 體驗，不論居家外出、辦公空間或健身場所皆可使用。2021 年打造的智慧紡織科技品牌 WIIM，可看出公司在智慧紡織領域的努力。

聚陽不斷創造新商業模式並跳脫傳統成衣加工廠的框架，建立全球原物料供應鏈體系，據點跨足印尼、越、柬、中、菲等國，並以嚴謹的管理思維與豐富的產業經驗，成為美、歐、日、台服飾品牌的主要合作夥伴。

Makalot is featuring its EMS WIIM ProSports yoga pants, which applies Electrical Muscle Stimulation (EMS) technology that uses electric power to stimulate the nerves and muscle groups, allowing the muscles to exercise, contract, and relax more effectively. The goal is to help users train the target muscle groups that are more difficult to access and lacking exercise, and strengthen the impact of muscle training. With EMS, users can shorten the time period to achieve better performance.

EMS is widely adopted in physical therapy, muscle rehabilitation, and sports science with its decades-long history. Makalot has found the advantages of the technology and has applied it in the smart textiles field, combining fashionable, textile elements with thin, wireless features. It allows users to experience wearable EMS devices in various environments, such as at home, outside, in the office, or at the gym.

Makalot has never ceased exploring new business models and to move beyond the norm in the traditional textile industry through setting up a global system for raw material supply. The accumulation of these efforts is shown in Makalot's new smart textile technology brand WIIM, launched

認證 Certifications :
Slated to obtain ISO 13485 and GMP in 2023 Q1.

in 2021. On the other hand, the company has offshored operations to Indonesia, Vietnam, Cambodia, China, and the Philippines, while primarily focusing on apparel brands based in the U.S., Europe, Japan, and Taiwan.

目標客群 & 合作伙伴 Target Audience :
Markets in Europe, the U.S., and Japan

Q0223a | ZT33D 心率感測器 ZT33D Heart Rate Monitor & ZE1 肌電感測器 ZE1 EMG Monitor

萬九科技股份有限公司 ZENTAN TECHNOLOGY CO., LTD 

萬九科技推出二項智慧紡織產品：ZT33D 心率感測器和 ZE1 肌電感測器。ZT33D 可搭配 ZENTAN FP3, FF5 和 BioVest 等產品使用，透過導電電極織物在胸腔區域偵測心電脈衝訊號，可獨立記錄即時的心率資訊，或藉由 BLE 傳送到手機 App 來記錄儲存，以便居家照護或復健運動使用。

ZE1 肌電感測器內建 IMU 以及兩組體表肌群偵測電極，可與多個裝置搭配組合使用於身體各部位肌群的偵測。以手部為例，在手肘及手臂處各放置織物載體各搭配一組 ZE1 device 可以即時顯示上肢肌群運動數值，以及獲得手部肘關節活動角度變化。使用者可透過 app 擷取並分析肌群數值及關節活動角度，將精準科技應用在醫療復健及運動健身訓練上。

萬九科技以 1976 年創立的 Cardiosport 品牌，為醫療保健和運動健身行業領先開發心率監測和運動技術解決方案，同時也提供客戶 OEM/ODM 服務。

Zentan Technology features two smart textile products; the ZT33D Heart Rate Monitor and the ZE1 EMG Monitor. The ZT33D is compatible with Zentan's FP3, FF5, and BioVest, featuring conducting electrodes embedded in the textile material and positioned at the chest area to monitor heart rate vitals. The ZT33D can independently record heart rate data in real-time, or transfer the data through BLE to the compatible app for backup

認證 Certifications :
ZT33D : TFDA, NCC
ZE1 : CE, FCC(ID:QSWZE1), NCC(ID:CAJ21LP1090T2)

and record heart rate data for at-home healthcare, rehab therapy or exercise.

The ZE1 EMG Monitor is embedded with IMUs (inertial measurement unit) and two sets of skin sensory electrodes, making it suitable to link to multiple devices, and monitor and detect muscle status across the body. With the arms as an example, users can place ZE1 devices at the elbow and arm to monitor data like the physical exertion vitals in the muscle group, and obtain elbow joint motion angle changes.

Users can use the app to collect and analyze the obtained muscle group data and joint motion angles for precise results in medical rehabilitation and physical training.

Zentan offers heart rate monitoring and physical exercise solutions in the medical care and physical exercise areas under the Cardiosport brand, created in 1976, while providing OEM/ODM services as well.

目標客群 & 合作伙伴 Target Audience :
B2B, trading or distributors
ZT33D : Hospitals, clinics, or medical development-focused companies looking for certified products.
ZE1 : At-home care, rehabilitation therapy, exercise, fitness-based companies

Q0223a | AiQ 智慧照護系統 AiQ BioCare Jupiter 100 monitoring system

南緯實業股份有限公司 TEX-RAY INDUSTRIAL CO., LTD.

南緯實業 AiQ® 智慧照護系統 (BioCare Jupiter 100), 內含多個感測器, 能即時監測生理數據 (心率 / 體表溫度 / 呼吸率 / 定位), 並將資料上傳到置於建築物各層天花板的接收器, 再彙整到中控系統, 有效率的資料管理, 提升服務品質。

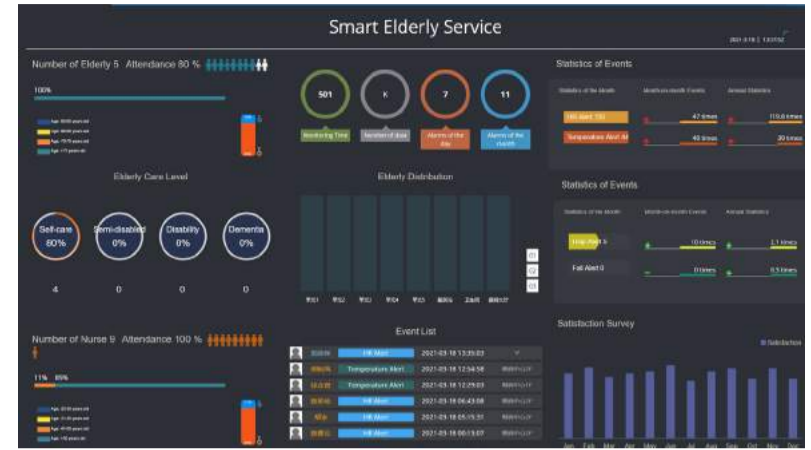

AiQ® 在 e-Textile 供應鏈中扮演重要的角色, 結合了關係企業金鼎聯合科技纖維的核心材料, 以及南緯的製造技術, 提供一個全方位垂直整合的穿戴式高科技紡織服務。AiQ® 智慧衣著的創新理念系「Smart Inside Out®」, 將科技全方位應用於智慧生活, 消費者能借著選擇智慧衣著, 彰顯出獨特的生活品味及對於優質生活的堅持。

Tex-Ray's AiQ BioCare Jupiter 100 System is a multi-functional remote monitoring system that can real-time and long-time monitor physiological data (Heart rate, Skin temperature, Respiration rate, and Location). The data will be transferred to the gateway placed on the ceiling of the building, and then be integrated to the central platform system, promoting an efficient data management system to improve care quality.

AiQ® plays an important role in the e-Textile supply chain by integrating the key material from King's Metal Fiber Ltd., an affiliated enterprise, and the production capacity from Texray Group, and providing a full range of vertically integrated wearable high-tech services. The

innovative concept of AiQ® smart clothing, "Smart Inside Out®," aims to apply the technology to achieving a smart lifestyle in all ways. Consumers can choose smart clothing to show their unique life taste while not compromising quality of life.

目標客群 & 合作伙伴 Target Audience:
Partners for market promotion, new sales cooperation, and technology cooperation partners

Q0223a | 穿戴式智慧按摩紡織品 Wearable E-Massage Textiles

豪紳纖維科技股份有限公司 ASIATIC FIBER CORPORATION

豪紳纖維以智慧纖維為核心, 致力開發機能醫用紡織品, 主推二款產品: AFC Easy Care® 石墨烯加熱眼罩, 以獨家的加熱元件主動發熱, 再加上石墨烯遠紅外線釋放, 可提供更強的熱感滲透力, 促使皮下深層的溫度上升、加速血液循環, 有效舒緩眼睛疲勞, 同時減少黑眼圈、紅血絲、細紋等問題。讓上班族、追劇族、3C 重度等使用者減少眼睛負擔。

另一項產品 iQmax® 穿戴式智慧按摩紡織品, 提供醫院、復健診所使用。織物化的創新設計讓電療療程更為舒適服貼、可水洗、重複使用, 大幅降低療程中的耗材成本。穿戴式微電流紡織品可依指定部位或穴位客製開發, 且適用市售各種低週波治療機台。使用者也可結合 APP 直接於行動裝置操作, 提升使用自主性與便利性。

豪紳將持續與相關院所合作, 用機能布料結合 AI 及雲端大數據, 運用智慧醫療提升醫病品質; 另外透過產品研發, 讓民眾能透過遠距醫療, 居家保健, 免去疫情期間不方便前往醫院時仍能得到完善的醫療照護。

Asiatic Fiber is a long-established and most professional medical textile company in Taiwan. They are dedicated to devising smart healthcare solutions to enhance the quality and efficiency of traditional healthcare: AFC Easy Care® Graphene Heated Eye Mask and iQmax® Wearable E-massage Textiles. Compared to other heated products, AFC Easy Care® Graphene Heated Eye Mask used utilizes graphene's heat transmission and far infrared heating, combined with their advanced heating module, creating

a stronger heat penetration and temperature increase that can improve blood circulation around eyes, creating an effective solution to relieve eye strain, reduce dark circles and red eyes.

iQmax® Wearable E-massage Textiles offers better comfort, washable and reusable features to reduce waste costs. Clients can customize their wearable textiles according to a specific body part or acupuncture points, as their have worked with medical centers to develop various gloves, elbows and wrist guards. Also it can be compatible with any commercial low-frequency therapy machinery, and can be linked up to Asiatic-developed apps for self-monitoring and convenience.

In the future, Asiatic Fiber will continue to collaborate with related medical institutions to combine functional textiles with AI, the cloud database, through these smart techs to improve healthcare quality. It can make healthcare more accessible for patients during the pandemic, where they may or may not have access to public medical service.

認證 Certifications:
Graphene Eye Mask : FDA
Wearable E-massage Textiles : 2020, 2021 Taiwan Excellence Awards

目標客群 & 合作伙伴 Target Audience:
Graphene Eye Mask : B2B、B2C
Wearable E-massage Textiles: B2B、B2C hospitals and rehabilitation clinics

Q0223a | 抗菌 Silverbac 系列 Antibacterial Silverbac Series

潤泰全球股份有限公司 RUENTEX INDUSTRIES LIMITED

潤泰全球推出多種創新材質專業等級紡織品, 其中, 最特別的是以耐高溫水洗、耐氯漂洗及抗菌 Silverbac 系列產品。此織物的抗菌效果已通過美國 Resinova 實驗室以 ASTM E3160 測試方法, 有效抵抗 Klebsiella pneumonia (ATCC #BAA-1705) 及 Staphylococcus aureus (ATCC #6538) 等病菌。

測試數據顯示 Silverbac 布料在 100 度高溫漂洗後, 仍具 100% 抗菌效果, 特別適用於醫療院所之床組、被單、醫師與護理師的診療服以及相關日照中心與安養院所。Silverbac 系列不同於市面上一般使用抗菌劑加工之商品, 其織物採用的紗線材料中鑲嵌入銀離子成份, 可以讓織物具有高度耐用的抗菌效果。

此外, 潤泰全球也推出多種創新研發成果, 如漢麻二酚 CBD 助眠紡織品、具有美國 FDA 認證的 Ceravida Recover 能量助眠床組商品、石墨烯發熱保暖衣系列與雙效涼感針織面料系列等, 適合各種不同場域之創新產品。

As a textile and garment expert, Ruentex Industries offers new and innovative medical-grade textile products. The most important one is the antibacterial-featured Silverbac series, which can withstand high-temperature laundry washing. The antibacterial performance in this series is certified by the U.S.-based Resinova

laboratory and has passed the ASTM E3160 testing procedures for antibacterial capabilities against Klebsiella pneumonia (ATCC #BAA-1705) and Staphylococcus aureus (ATCC #6538).

Both testing results show that after going through 100 degrees Celsius of hot water washing, the material still maintains 100% of its antibacterial properties, making it a suitable option for hospital bedding, medical gowns for doctors and nurses, or for applications in elderly care facilities. Contrary to other brands featuring antibacterial capabilities, the unique point of the Silverbac is how Ruentex has incorporated silver ions into the yarn material, creating textiles that are high-temperature resistant, durable, and antibacterial.

Ruentex has also rolled out many innovative results and products for several applications in different fields, including CBD sleep-aid textiles, FDA-certified Ceravida Recover sleep-aid bedding products, graphene-heated clothing, and cooling knitted fabrics.

認證 Certifications:
Bluesign, Oekotex, GRS (recycled polyester & recycled nylon), GOTs (Organic Cotton)

目標客群 & 合作伙伴 Target Audience:
Textile suppliers making transition into the medical textile supply chain

Q0309a | 電動居家照護床 & 電動婦科床 Electric nursing bed, Electric gynae bed

榕懋實業股份有限公司 APEX HEALTH CARE MFG., INC.

榕懋主推產品為電動居家照護床和電動婦科床，兩項產品都有通過 ISO9001, ISO13485, GMP 和 FDA 的認證。居家電動照護床是目前世界上可下降至最低的床，最低點的離地高度約 7cm，可避免臥床老人跌落的風險。電動婦科床可用手控和腳控兩種升降方式，方便醫護人員操作。

本次特別展示了多項針對台灣、日本、美國和歐洲的客人設計產品。

該公司具備完善的研發和品管團隊，可以跟客人一起設計開發產品，建立更堅固的合作關係。

榕懋是醫療和復健設備產品的優良製造商。30 多年來與客戶合作建立強大的聯盟，已成為亞洲地區領先的復健設備、病人移位機、家庭護理產品、醫療保健、醫院設備、電動照護床和客製化產品的優質產品供應商之一。

Apex Healthcare (Apexcare) is featuring its electric nursing bed and electric gynae bed, both having obtained ISO9001, ISO13485, GMP, and FDA certifications. Apexcare's electric nursing bed is currently the only bed in the world capable of being lowered to only 7cm above the ground, which helps elderly patients avoid falling and causing further injury. The electric gynae bed features two modes of adjusting the height, through hand or by feet control, easing up the workload for caregivers.

The company is showcasing many other new medical products geared for patients in Taiwan, Japan, the U.S., and Europe. Apexcare is equipped with comprehensive R&D and quality control teams, allowing the company to be flexible in developing products with their customers, and strengthening better business relations.

Apexcare is a manufacturer and designer of quality medical and rehabilitation equipment products. For 30 years, the company has worked in partnership with their customers to build strong alliances, emerging as one of the Far East's leading suppliers of quality products for rehabilitation equipment, patient lift, home care product, healthcare, hospital equipment, home care bed and custom fabrication marketplaces.

認證 Certifications :
ISO9001, ISO13485, GMP, FDA

目標客群 & 合作伙伴 Target Audience :
Taiwan, Japan, the U.S., and Europe local agents.

Q0709 | 近紅外線深層光熱療設備 Near Infrared Deep Photothermal Therapy Equipment

建菱科技股份有限公司 JIAN LING TECHNOLOGY CO., LTD.

建菱科技是一家集智慧健身 / 健康 / 復健整合系統，及近紅外線光熱療設備製造之專業廠商。本次主打最新全身型「近紅外線深層光熱療設備 PHA901」，是利用直接提取太陽紅外線可見光和水過濾紅外 A(wIRA) 的獨家技術，取近紅外線 600nm 至 1400nm 波段，去除會傷害皮膚及眼睛之紫外光，將皮膚滲透性最好的光波照射到人體體內，提高人體深層體溫 (38°C-40°C) 之全波長全身型光熱療設備。

PHA901 可將大量近紅外線能量注入人體，無需擔心皮膚灼熱感和灼傷，艙內溫度僅保持在約 41°C 左右。近紅外線的功效在國際文獻已做很多闡述，可做到抗癌活性、深層排毒、消炎、提高免疫能力、促進代謝活動及減少應激蛋白的生成等。

Jian Ling is a manufacturer expert in a range of areas, including smart fitness, healthcare, and physical therapy integrated system services and near infrared photothermal therapy equipment. The company is featuring its new "Near Infrared Deep Photothermal Therapy Equipment PHA901," which directly uses solar infrared visible light and water filter infrared A(wIRA) technology exclusive to Jian Ling. Applying the near infrared air band range at 600nm to 1400nm, Jian Ling's equipment can remove ultraviolet light harmful to skin and the eyes and allow the beneficial light range to pass through into the skin and body, at the

same time, increasing the user's deep-layer body temperature (38°C-40°C) with the full wavelength and body photothermal therapy equipment.

PHA901 is capable of injecting elevated levels of near infrared waves into the body, without fear of producing heat on the skin or causing burns. Inside the capsule, the temperature is maintained at around 41°C. The many benefits of using near infrared waves are widely documented in international research, such as counteracting cancer activity, deep detox, anti-inflammatory features, improving the immune system, metabolic activity, and reducing the production of stress proteins.

認證 Certifications : IEC, EN safety certifications

目標客群 & 合作伙伴 Target Audience :
To B : Dealers, agents, To C : Hospital procurement, Spas, senior living facilities.

Q0419a | 自動翻身減壓氣墊床 & 俯臥位氣墊床 Optima Turn & Optima Prone

雅博股份有限公司 -WELLELL INC.

Be well, Live well
Wellell

雅博今年推出新品牌「Wellell」，產品聚焦於升級高階醫療氣墊床系列：Optima Turn 自動翻身減壓氣墊床及 Optima Prone 俯臥位氣墊床。Optima Prone 在全球疫情期間，已成為醫院醫護人員減輕照護病人負擔的重要工具，由於此類患者較需要定時變換頭部位置來順暢呼吸道，雅博納入的設計巧思，藉由頭枕及床墊裡面的氣囊來調整頭部位置，翻動病患身體，除順暢呼吸道外，亦可避免壓瘡生成的照護系統，可提升中重症新冠肺炎患者的照護效果及品質。

目前已推廣至中國大陸醫院通路，歐洲方面則以西班牙市場為主，後續將推銷至英國、德國、義大利市場。台灣地區部分，雅博共捐贈 20 床至全台 7 家醫院；另外，中東、印度等其他亞洲地區也陸續獲獲訂單量。

未來五年雅博 Wellell 會全力衝刺高階醫療產品於海外市場並透過數位轉型及 IoT、雲端系統等智慧健康照護科技，將其技術導入旗下產品中，開發出數位遠距醫療產品。

Wellell Inc., under its newly launched brand Wellell this year, will be focusing on upgrading its product line up with its high-end hospital air mattress that prioritizes pressure injury prevention solutions, Optima Turn Automate Lateral Turning air mattress for pressure relief, and Optima Prone, which automates prone positioning therapy and provides full-body pressure relief. During the pandemic, Optima Prone became the perfect tool to help alleviate caregivers' workload and improve caregiving quality, as it was geared towards COVID-19 patients ranging from mid-to-high severity. These patients often require routine head repositioning, and Wellell's airway and fluid tubing management and unique headrest, personalized pressure care system designs help improve caregiving quality.

Optima Prone is now widely distributed in the Chinese hospital channels, while in Europe, the company is focusing on the Spanish market, with plans to expand into the U.K., Germany, and Italy. In Taiwan, Wellell has donated a total of 20 beds to seven hospitals across the island. The company is also seeing an increase in orders from customers based in the Middle East and India.

In the next five years, Wellell will be directing resources into marketing its high-end medical products to overseas markets and developing digital telehealth products through smart healthcare technologies based on digital transformation, IoT, and cloud solutions.

認證 Certifications :
FDA, TFDA, CE, Taiwan Excellence Award

目標客群 & 合作伙伴 Target Audience :
Professional medical channels in the Asian Pacific region

P0703 | 睛延寶 W ProjectAir W

怡利電子工業股份有限公司 E-LEAD ELECTRONIC CO., LTD.

怡利電子以汽車原廠一階供應商之技術認證，跨足進入醫療器材產業，以在國際各大廠商規範之研發製造體系下所獲取的經驗，於今年六月推出穿戴式護眼產品 - 睛延寶 W，將車用 HUD 光學玻璃遠距成像技術應用到我們日常生活中。除了改善近距離用眼與 3C 螢幕藍光對眼睛的傷害外，睛延寶 W 能自然調整坐姿減少低頭閱讀帶來的頸椎傷害。此外老年人因老花問題所導致閱讀不便，亦可透過此產品得到有效的改善。

睛延寶 W 是透過兩片光學鏡片，將近距離的觀看物成像於 8 米遠，讓看近變看遠，並適用各種場景無論端坐書桌看書寫字、半躺沙發看手機、平躺床上追劇都能得到最舒適的體驗。睛延寶系列光學鏡片透過 SGS 認證虛像可達 8 米，更在今年參加莫斯科發明展得到金獎與美國特別獎之殊榮。

As a certified Tier-1 automotive supplier, E-Lead has used the years of experience gained in the global supplier certification for R&D purposes, and entered the medical device industry by releasing its new product, the ProjectAir W wearable device for eyesight protection this month, which applies automotive-grade HUD optical glass distance imaging technology into our everyday life.

Aside from improving myopia and lessening the impact of blue light from screens on the eyes, the ProjectAir W can help naturally adjust the posture and decrease stress on the cervical vertebra. Elderly users can also alleviate reading difficulties caused by presbyopia with ProjectAir W.

ProjectAir W uses two optical lenses to make near objects appear like they're eight meters away, primarily used for different environments with maximum comfort in mind, like reading, writing, on the sofa scrolling through the phone, or lying on the bed watching dramas.

ProjectAir W is an award-winning innovation, winning the innovation gold award in Moscow and a special award in a U.S. event this year. The optical lenses used are SGS-certified with a virtual image range of eight meters.

目標客群 & 合作伙伴 / Target Audience :
Senior users and children, projected markets include Taiwan, China, South Korea, and Japan.

Q0423a | 醫療口罩 & 中衛酒精棉片 Medical Face Masks & CSD Alcohol Pads

中國衛生材料生產中心股份有限公司 CHINA SURGICAL DRESSINGS CENTER CO., LTD

中國衛生材料生產中心（CSD 中衛）搶先亮相今年推出的海外口罩新品牌 COLO、彩色口罩、中衛酒精棉片、各式醫療耗材，另展出 W 博拭系列濕巾產品、以及口罩販賣機。現場也展示 75 年所累積的生產優質醫療耗材經驗及全新國際品牌形象。

中衛在近幾年不斷顛覆突破大眾對醫療耗材的認知與想像，從 2016 年推出彩色口罩，後續與藝人、各大精品、典禮活動合作等，而在疫情讓口罩成為生活中必需品時，中衛推出的口罩設計與顏色，也成了大家搭配日常穿著的一環。COLO 品牌為中衛邁向全球市場的第一步，首波將於美國 Amazon 上市，此次將推出兩個系列，分別是 COLO MOOD 及 COLO SHOK 共 8 個顏色。

而 W 博拭系列濕巾是中衛全新的濕巾品牌，有酒精濕紙巾、潔牙濕紙巾及純水清淨棉三種款式，主攻家庭使用、母嬰照護、防疫需求等需求，單片拋棄式密封包裝設計，除了方便攜帶外，也確保使用效果。

China Surgical Dressings Center (CSD) is showcasing its newest face mask brand for overseas markets COLO, colored face masks, CSD alcohol pads, various medical supplies, and WipeLab series, as well as a surgical mask vending machine. CSD is also exhibiting all of its 75 years of experience in producing medical supplies and its new global branding image.

CSD has been subverting the masses' understanding and perception of medical supplies in the past years. From 2016 and going forward, CSD has rolled out colored face masks, and collaborating with celebrities, luxury brands, and public events. When face masks have become a necessity in our daily lives during the pandemic, CSD's face mask designs and colors also became a crucial key to our daily wardrobe. The COLO series is CSD's debut into the overseas market, which will be launched on Amazon, coming in two product lines – COLO MOOD and COLO SHOK – and a total of eight colors. The WipeLab wipes series is also CSD's newest wipes brand, coming in water, oral, and alcohol wipes options. CSD is primarily targeting homecare use, infant care, virus prevention, and with its individual, vacuum-sealed packaging design, apart from meeting portability needs, CSD's packaging ensures product effectiveness.

認證 Certifications :

CSD Medical Face Masks: ISO10993, CNS 14774, FDA, CE, Taiwan's SNQ symbol of national quality award, and Taiwan Excellence Award.

目標客群 & 合作伙伴 Target Audience :

Overseas medical supplies importers, hospitals, cosmetics retail chains, pharmacies, supermarkets, retail stores.

Q0323a | 鑽石型醫用口罩 Diamond Shape Surgical Face Mask

華新橡膠工業股份有限公司 MODERN HEALTHCARE CORP.

今年華新主推產品是鑽石型醫用口罩，榮獲台灣精品獎、世界八大國家發明展金牌獎，以及 2022 金氏世界紀錄最大鑽石型醫用口罩。鑽石型口罩特別在口罩本體展開後，形成的鑽石形狀有著超立體空間，讓呼吸順暢不悶熱，配戴時眼鏡不易起霧。口罩接觸面平均分布在口鼻周圍，可以提升氣密度，強化對病毒的保護。醫用口罩是全球防疫最重要的物資，期待華新醫材集團與世界各國醫療耗材經銷商合作，提供 MIT 優質產品一起守住全人類健康。

該集團同時致力於開發、製造和市場營銷尖端的醫療用品，例如擴大乳膠和丁腈手套的供應、提升傷口敷料和醫用膠帶質量，達到新的水平，並同時設計許多創新的口罩和口罩固定片等，多元醫療耗材產品，以滿足醫療工作者不斷變化的需求。

Modern Healthcare (Motex) is featuring its Diamond Shape Surgical Face Mask, which won a Taiwan Excellence Award, a gold award from the world's top eight innovation exhibitions, and the 2022 Guinness

World Records as the world's largest diamond-shaped face mask. The diamond shape face mask design is unique as it forms a special diamond shape when unfolded, which increases the breathing space for the nose and mouth, allowing for better, circulated breathing and prevents eyeglass lenses from fogging up. As the mask contact surface is evenly distributed around the nose and mouth, it improves mask fitness for the best protection against viruses.

As face masks have become a crucial tool in the world's fight against the COVID-19 pandemic, Motex hopes to join hands with global medical supply dealers to offer quality, MIT products for better protection.

Motex has been dedicated to the supply of various medical supplies, such as expanding supply for latex and nitrile rubber gloves, and raising the quality for wound dressings, and medical-use tape. The company also developed innovative surgical masks and surgical mask ear-loop adjusters.

認證 Certifications :

CNS14774, ISO9001, ISO13485, GMP, CE, FDA

目標客群 & 合作伙伴 Target Audience :

Hospitals, distributors for medical devices, medical supplies, drugstores, pharmacies, department stores, and customized OEM services

P0303a | 艾普定免疫定量分析儀 & 艾照護智慧照護床墊 iProtin reader & iProték Smart Mattress

嘉碩生醫電子股份有限公司 TST BIOMEDICAL ELECTRONICS CO., LTD. **tstbio**

主推產品是獲得第十八屆國家新創獎的「艾普定免疫定量分析儀」，為手持式定點照護 (POCT) 醫療器材。除了感染發炎「CRP」，再增添心血管惡性脂蛋白「Lp(a)」等二項指數標示功能。本系列產品已獲得台灣、歐洲上市許可，鎖定在宅醫療、診所或社區醫療應用，未來三年將發展為十種以上檢測產品群，涵蓋感染、癌症、慢性病等多種疫病應用層面。

「艾照護智慧照護床墊」鎖定高齡化社會長照需求，在不干擾生活下準確收集生命體徵參數，量測心率/呼吸/體動數據準確性高，與「艾普定免疫定量分析儀」整合成完整的健康照護系統。

tst biomedical's (tstbio) featured product is the 18th National Innovation Award (2021) winner "iProtin reader," a point-of-care-testing medical device. Aside from detecting CRP levels, tstbio

also added an additional function to detect Lp(a) figures. This product series has already acquired market authorization in Taiwan and Europe, targeting at-home medical care, clinics, and community healthcare applications. tstbio will develop over 10 different types of comprehensive testing product group in the next three years, covering infections, cancers, and chronic diseases.

The next featured product is the "iProték Smart Mattress," targeting the long-term care needs of elderly citizens. It can carry on data collection of vitals without disrupting the patients' daily life, detecting data such as heart rate, breathing, and physical exertion at a much more accurate rate as a result. Together with the iProtin Reader, both devices build up the basis for a comprehensive healthcare solution.

認證 Certifications :

目標客群 & 合作伙伴 Target Audience :

Hospitals, medical device channels, long-term care facilities

P0710 | LUFT Duo 二代空氣清淨機 LUFT Duo 2nd generation air purifier

稻穗股份有限公司 RICE EAR LTD.

稻穗針對過敏族提出的解決方案，二大核心技術：半導體光源及光觸媒技術。LUFTQI 品牌的創立，即為該公司供應針對辦公室、車上及家用的高效率空氣清淨機。已上市的 LUFT Duo 二代空氣清淨機，特色為更有效的空氣淨化功能、低噪音，全新金屬網設計。LUFT Duo 是全球最小的分子過濾器，運用 UVA LED 及二氧化鈦/氧化鋅將灰塵、花粉、黴菌及細菌分解和破壞到最小分子的大小。體積比其他競爭品牌小十分之一，價格方面更親民優惠。共二個規格：體積較小的 LUFT Cube 適合空間小的環境使用，而體積較大的 LUFT Duo 適合空間大的環境。

LUFT Cube 可擺在桌面上外，也可以放在車上，淨化車內的空氣。晚上睡覺時也能持續作用；透過產品的夜晚模式將 LED 燈調低亮度，並且在低音量運作。

LUFTQI 試圖將最新科技納入第三代的產品中，未來會持續著重研發能量在 AI 智慧型空氣淨化器以及以優化空氣品質為主的產品。LUFT Duo 也獲得 SNQ 國家品質標準證書防疫產品類等殊榮。

Rice Ear Ltd.'s solutions for allergy sufferers is defined by two core technologies, semiconductor light source and photocatalyst process. Under the LUFTQI brand, they provide world-class, highly effective air purifiers for offices, cars and home, having launched their 2nd generation LUFT Duo — featuring increased cleaning efficiency, lower noise level, and a new metal mesh design. LUFT Duo is the world's smallest molecular purifier. It uses UVA LED and Titanium Oxide/Zinc Oxide to zap dust, pollen, mold, and pathogens down to the molecule. It's 1/10th the size of other purifiers in the same category, but less than half the price, and comes in two models - the smaller one, LUFT Cube, is for smaller spaces and the larger model, LUFT Duo, is for bigger spaces.

The main features are its efficiency at purifying the air close to personal breathing area, and its form factor, so it occupies less space on desks. Secondly, LUFT Cube can be put in their vehicles so that users can breathe purified, filtered air. One can also purify the air while sleeping at night by turning on the night mode setting. In night mode, the device dims down the light and operates at a quieter volume.

LUFTQI is looking to incorporate new technology into the third generation and is coming up with offer AI-based air purifiers and devices geared towards improving air quality in the future. LUFT Duo has been awarded by Symbol of National Quality in the Epidemic Prevention Category by Research Center for Biotechnology and Medicine Policy in Taiwan.

認證 Certifications :

CES Innovation Award, 2020/2021 Taiwan Excellence Award, CE, FCC, and CFC.

目標客群 & 合作伙伴 Target Audience :

Looking to cater to agency distributors in America, Japan, Singapore, and Australia to enter local markets by focusing on the e-commerce sector, followed up by the country segment.

BEYOND THE MEDTECH

2022 Smart Healthcare Forum

With the super-aged society upon us, everyone has the chance to live up to a hundred years. The innovative advancements in the ICT industry have enabled technological applications to gradually bring digital healthcare and telemedicine into our daily lives. As the world continues to advance and change, how the medical industry should evolve and transform is among the most immediate topics up for discussion. Let us dive into the technological, innovative, and management aspects in the medical industry, and lay down the foundation for the new frontier: Beyond the Medtech.
