Fastener Taiwan 2024

Green Fastening, Precision Attaining.

Taiwan is the third-largest fastener exporter in the world and holds a leading position in the global fastener industry. As the global manufacturing sector is going through green and sustainable transformation, the 2024 Taiwan International Fastener Show, themed "Green Fastening, Precision Attaining," focuses on the practices of environmental protection, sustainability, and automation, while integrating green technologies to move towards a net-zero carbon future.

As Taiwan's only professional B2B fastener exhibition, the Taiwan International Fastener Show gathers over 300 fastener manufacturers, connecting the upstream and downstream sectors of the industry chain and presenting a comprehensive view of Taiwan's highly integrated fastener supply chain. It also showcases the high added value of Taiwan's precision fastener industry. This year's exhibition attracted nearly 9,000 visitors from both domestic and international attendees.

During the exhibition, attendees can not only interact with leading suppliers from Taiwan but also gain in-depth insights into global fastener market trends and future development directions. This makes the Taiwan International Fastener Show an essential event that cannot be missed in the global fastener industry.

Fastener Taiwan 2024 Highlights

Sustainability Zone

Carbon emission tracking, waste heat recovery, and recycling technologies help industries achieve carbon reduction and sustainability.

High Value Fastener Gallery

In line with the fastener industry's shift towards high added value, the gallery showcases screws and fasteners for sectors like construction and semiconductors, highlighting Taiwan's manufacturing strength.

ESG Pioneer Recognition

Fastener Taiwan 2024 launched the 'ESG Pioneer' recognition to acknowledge fastener manufacturers' efforts in ESG practices and foster their international competitiveness.

3R (Reduce 、 Reuse 、 Recycle)

The trade show implements 3R (Reduce, Reuse, Recycle) principles, achieving an impressive 98.5% recycling rate across its facilities.

2024Events Highlights

Opening Ceremony and Gala Dinner

TITA, TAITRA and TIFI, along with distinguished speakers, visitors and media, raised a toast to the great success of Fastener Taiwan, the grand event in the global fastener industry.

Global Fastener Forum

The forum focused on "green sustainability," with industry experts presenting the latest technologies and applications. These experts also explored future opportunities and discussed strategies for achieving low-carbon sustainability, attracting over 450 participants from across the sector.

Procurement Policy Briefing

Mr. Hergen Oetjen, Vice General Manager of REYHER from Germany was invited to share insights into the company's procurement policies and future direction. The event was a full house with an engaged audience.

Appreciation Message

**Vice President of
REYHER**
Hergen Oetjen

"Taiwan fasteners manufacturers have the big advantage that the whole supply chain is very close and very concentrated."

I really would like to recommend everyone to visit the next Taiwan Fastener Show."

**President of
SUNCO INDUSTRIES**
Yoshihide Okuyama

"Taiwan's supply chain system is very well-established, demonstrating exceptional efficiency and integration."

This is one of the key factors that allows Taiwan's fastener industry to stand out in the global market."

**Exhibitors
&
Buyers**

"To come see how advanced Taiwan technology has been, and also what we can offer to the world in terms of fastener."

"If you want to know more about the top-tier manufacturers in the industry and the most advanced fastener technology, believe me, Taiwan International Fastener Show is where you want to be."
