Organized by the Taiwan External Trade Development Council (TAITRA), this year's TaiSPO, Sports and Fitness Taiwan, is from March 6 to 9 at the Taipei Nangang Exhibition Center Hall 2. The four-day exhibition focuses on three main themes: "Dynamic Fitness Society," "Alternative Leisure Lifestyle," and "Sport Tech Next Level." It showcases the diverse community of the sports and fitness industry, all kinds of outdoor lifestyles, and the infinite ways advanced technology drives the sports ecosystem.

TAITRA President and CEO Simon Wang reported that 250 organizations are exhibiting across 850 booths this year, a 25% increase from last year. Presenting a comprehensive picture of the sports and fitness industry, TaiSPO connects exhibitors with international market opportunities.

This year TaiSPO includes the largest pavilion to date: the all-new Diving Pavilion. Over 30 companies are showcasing their diving products and international brands, as well as tourism

packages and classes. The pavilion presents the complete industrial chain of Taiwan's exceptional water sports industry, from product development to manufacturing and services. Another new area this year is the Glamping Pavilion, where Snow Peak, a luxury camping brand from Japan, and Thule, a Swedish outdoor lifestyle company, will showcase their high-end and high-quality products.

Over 450 buyers from 57 countries pre-registered for the 2024 TaiSPO. During the four-day exhibition, TAITRA expects to arrange up to 100 one-on-one matchmaking meetings between buyers and suppliers. Companies are welcome to use their business cards to pre-register and enter the exhibition. The general public can buy tickets to visit the exhibition on March 8 and 9.
